Constructing a New Canon of Post-1980s Indian English Fiction Sahdev Luhar,Madhurita Choudhary,2017-08-21 The literary canon implies the evaluation or estimation of certain literary texts as the most important during a particular time The canon is not merely a set of texts it is a set of standards evaluative procedures and values Belonging to a canon confers a guarantee of literary greatness A canon is formed by a particular group to channelize cultural hegemony over others or can be constructed by a governed group to bring about cultural symmetry The rise of diverse literatures in English in different parts of the world after the colonial rule of England was the consequence of an urge to articulate a cultural equilibrium or an urge to strike back The process of canon formation is also a focused and bigoted act and is always carried out to accomplish certain self centred objectives It is commonly accepted that canon formation is executed to accomplish or naturalize certain

Global South Atlantic Kerry Bystrom, Joseph R. Slaughter, 2017-11-28 Not only were more African slaves transported to South America than to North but overlapping imperialisms and shared resistance to them have linked Africa Latin America and the Caribbean for over five centuries Yet despite the rise in transatlantic oceanic hemispheric and regional studies and even the growing interest in South South connections the South Atlantic has not yet emerged as a site that captures the attention it deserves The Global South Atlantic traces literary exchanges and interlaced networks of communication and investment financial political socio cultural libidinal across and around the southern ocean Bringing together scholars working in a range of languages from Spanish to Arabic the book shows the range of ways people governments political movements social imaginaries cultural artefacts goods and markets cross the South Atlantic or sometimes fail to cross As a region made up of multiple intersecting regions and as a vision made up of complementary and competing visions the South Atlantic can only be understood comparatively Exploring the Atlantic as an effect of structures of power and knowledge that issue from the Global South as much as from Europe and North America The Global South Atlantic helps to rebalance global literary studies by making visible a multi textured South Atlantic system that is neither singular nor stable **Library**
