## **Secularism And Islam The Building Of Modern Turkey:**

*Authoritarian Politics in Turkey* Bahar Baser, Ahmet Erdi Öztürk, 2017-05-30 Despite being democratically elected Turkey's ruling AKP party moved towards increasingly authoritarian measures in the years that followed. After the coup attempt in July 2016 the AKP government declared a state of emergency which President Erdoğan saw as an opportunity to purge the public sector of pro-Glenist individuals and criminalise opposition groups including Kurdish separatists, Alevites, leftists and liberals. The country experienced political turmoil and rapid transformation and debates around constitutional amendments began that would change the regime to a Turkish style presidential system. This book identifies the process of democratic reversal in Turkey. In particular contributors explore the various ways that a democratically elected political party used elections to implement authoritarian measures. They scrutinise the very concepts of democracy, elections and autocracy to expose their flaws which can be manipulated to advantage. The book includes chapters discussing the roots of authoritarianism in Turkey, the political economy of elections, the relationship between the political Islamic groups and the government, Turkish foreign policy, non-Muslim communities' attitudes towards the AKP and Kurdish citizens' voting patterns. As well as following Turkey's political trajectory, this book contextualises Turkey in the wider literature on electoral and competitive authoritarianisms and explores the country's future options.

Islam and the Politics of Secularism Nurullah Ardiç, 2012 This book examines the process of secularisation in the Middle East in the late 19th century and early 20th century that transformed the Ottoman Empire and led to the abolition of the Caliphate.

*Religious Parties and the Politics of Civil Liberties* Vineeta Yadav, 2021-02-12 Religious parties are increasingly common in all parts of the world. Their rise in Muslim majority countries has been particularly prominent as they increasingly participate in elections, win legislative seats and join governments. Since they are often founded on orthodox principles that are inconsistent with liberal democracy, the consequences of their rise and success for the prospects of liberal democratic values and practices has inspired much heated debate and discussion. This book considers a question that has been central in these debates: will the rise and success of religious parties lead to declines in the civil liberties of their citizens?

Political Islam and Democracy in Central Asia Ajam Kalonov, 2023-06-30 Political Islam and Democracy in Central Asia is a study of moderation of political Islam in Central Asia. It analyses the only Islamic political party that was ever allowed to participate in elections in Central Asia and contributes to the debate on the radicalization or moderation of Islamic political parties. The book examines the Islamic Revival Party of Tajikistan (IRPT) which has been the only legal Islamic party in post-Soviet Central Asia until 2015 and has been recognized by many observers as moderate. Studying the ideological change of the party which happened after its inclusion into political process, the book identifies their moderation as either tactical or ideological. The author examines and describes the main factors that led the IRPT toward moderation with a focus on the inclusion moderation hypothesis which concludes that inclusion can lead to moderation. Based on extensive analytical data, the author provides reasons for the moderation of the

Tajik Islamists It also challenges the ideological moderation of the Tajik Islamists by examining their attitudes toward the conventions of the modern democratic political system Providing a detailed analysis of moderate Islamism and its controversial challenges for the modern world this book will be of interest to researchers in the fields of Political Science electoral politics Islamic studies and Area Studies with particular reference to Central Asia *Muslim Preaching in the Middle East and Beyond* Stjernholm Simon Stjernholm,2020-06-18 Preaching has been central to Muslim communities throughout the centuries The liturgical Friday sermon is a prime example although other genres that are less commonly known also serve important functions This book addresses the ways in which Muslims relate various forms of religious oratory to authoritative tradition in 21st century Islamic practice while striving to adapt to local contexts and the changing circumstances of politics media and society This is the first book of its kind to look at homiletics beyond a specific country focus Taking into consideration the historical developments of Muslim preaching it offers a collection of thoroughly contextualised case studies of oratory in Turkey Egypt Saudi Arabia Bosnia Sweden and the USA The analyses presented here show shared emphasis on struggles for legitimacy efforts to speak authoritatively as well as discursive opportunities and constraints [A History of Islamic Societies](#) Ira M. Lapidus,2014-10-13 This third edition of Ira M Lapidus s classic *A History of Islamic Societies* has been substantially revised to incorporate the insights of new scholarship and updated to include historical developments in the first decade of the twenty first century Lapidus s history explores the beginnings and transformations of Islamic civilizations in the Middle East and details Islam s worldwide diffusion to Africa Spain Turkey and the Balkans Central South and Southeast Asia and North America situating Islamic societies within their global political and economic contexts It accounts for the impact of European imperialism on Islamic societies and traces the development of the modern national state system and the simultaneous Islamic revival from the early nineteenth century to the present This book is essential for readers seeking to understand Muslim peoples Publisher information **Islamic Literature in Contemporary Turkey** K. Cayir,2016-04-16 This book explores the changing understandings of Islam by focusing on the Islamist movement s production of literary fiction since the early 1980s By focusing on Islamic literary narratives of the period this study introduces issues of change space history and analytical relation that are excluded by the essentialist reading of Islamism **Secularism, Decolonisation, and the Cold War in South and Southeast Asia** Clemens Six,2017-07-20 The intensifying conflicts between religious communities in contemporary South and Southeast Asia signify the importance of gaining a clearer understanding of how societies have historically organised and mastered their religious diversity Based on extensive archival research in Asia Europe and the United States this book suggests a new approach to interpreting and explaining secularism not as a Western concept but as a distinct form of practice in 20th century global history In six case studies on the contemporary history of India Indonesia Malaysia and Singapore it analyses secularism as a project to create a high degree of distance between the state and religion during the era of decolonisation and the emerging

Cold War between 1945 and 1970 To demonstrate the interplay between local and transnational dynamics the case studies look at patterns of urban planning the struggle against religious nationalism conflicts around religious education and anti communism as a dispute over secularism and social reform The book emphasises in particular the role of non state actors as key supporters of secular statehood a role that has thus far not received sufficient attention A novel approach to studying secularism in Asia the book discusses the different ways that global transformations such as decolonisation and the Cold War interacted with local relations to reshape and relocate religion in society It will be of interest to scholars of Religious Studies International Relations and Politics Studies of Empire Cold War Studies Subaltern Studies Modern Asian History and South and Southeast Asian Studies

**Good Jew, Bad Jew** Steven Friedman, 2023-11-01 Shows how anti-Semitism has been distorted to serve the Israeli state Good Jew Bad Jew is a critique by one of South Africa s foremost political theorists of mainstream understandings of Jewishness Steven Friedman offers a searing analysis of the weaponisation of anti-Semitism in service of political objectives that support the Israeli state and global white supremacy Looking specifically at the way in which language is used to shape

identities Friedman uses many examples to illustrate how anti-Semitism and anti-Semites are increasingly defined as anything and anyone that opposes the interests and policies of the Israeli state The use of anti-racist language to defend racial domination distorts not only the meaning of what it is to be Jewish but sheds light on how all dogmatic nationalisms function Friedman uses India and South Africa as examples but the analysis applies across the world too Good Jew Bad Jew does not offer a simplistic binary understanding of Jewishness and the actions of the Israeli state and ideology It is a detailed, deeply researched and critical work that will appeal to both specialists and general readers looking for a considered view on how language shapes belief systems and how the powerful forces of racism and nationalism and their opponents are being misrepresented

**What the West is Getting Wrong about the Middle East** Ömer Taspınar, 2020-09-17 The West's actions in the Middle East are based on a fundamental misunderstanding political Islam is repeatedly assumed to be the main cause of conflict and unrest in the region The idea that we can decipher Jihadist radicalization or problems in the Middle East simply by reading the Qur'an has now become symptomatic of our age This dangerous oversimplification and the West's obsession with Islam dominates media and policy analysis ultimately skewing intervention and preventing long-term solutions and stability in the region Ömer Taspınar who has 20 years' research and policymaking experience explains here

what is really going on in the Middle East The book is based on three of the most pressing cases currently under the spotlight the role of Erdogan and the unrest in Turkey the sectarian clashes in Iraq Syria Yemen and Lebanon and the existence of the so called Islamic State Islam is often seen as the root cause of the challenge associated with these cases But by unpacking the real issues such as entrenched authoritarianism vast energy resources excessive defense spending and the youth bulge the book demystifies what is happening and cites governance and nationalism as the main drivers of conflict The book shows the importance of treating the causes which are economic social and institutional rather than the symptom the continued and growing success of Islamist parties and jihadist movements in assessing the Middle East In revealing exactly how Islamism is activated and by analyzing the structural challenges of the region this unique insider s account provides a map to understanding Middle Eastern wars and conflicts and the prospects for the future *The Oxford Handbook of Contemporary Middle-Eastern and North African History* Jens Hanssen,Amal N. **Islam and the Secular State** Abdullahi Ahmed An-Na'im,2010-03-30 What should be the place of Shari a Islamic religious law in predominantly Muslim societies of the world In this ambitious and topical book a Muslim scholar and human rights activist envisions a positive and sustainable role for Shari a based on a profound rethinking of the relationship between religion and the secular state in all societies An Na im argues that the coercive enforcement of Shari a by the state betrays the Qur an s insistence on voluntary acceptance of Islam Just as the state should be secure from the misuse of religious authority Shari a should be freed from the control of the state State policies or legislation must be based on civic reasons accessible to citizens of all religions Showing that throughout the history of Islam Islam and the state have normally been separate An Na im maintains that ideas of human rights and citizenship are more consistent with Islamic principles than with claims of a supposedly Islamic state to enforce Shari a In fact he suggests the very idea of an Islamic state is based on European ideas of state and law and not Shari a or the Islamic tradition Bold pragmatic and deeply rooted in Islamic history and theology *Islam and the Secular State* offers a workable future for the place of Shari a in Muslim societies *The Oxford Handbook of Secularism* Phil Zuckerman,John R.
