Eurasian Business and Economics Perspectives Mehmet Huseyin Bilgin,Hakan Danis,Ender Demir,Ghulam Mustafa,2022-04-27 EBES conferences have been intellectual hub for academic discussion in economics finance and business fields and provide network opportunities for participants to make long lasting academic cooperation This is the 22nd volume

of the Eurasian Studies in Business and Economics EBES's official proceeding series which includes selected papers from the 35th EBES Conference Rome 2021. Due to the COVID 19 the conference presentation mode has been switched to online virtual presentation only. In the conference 142 papers by 302 colleagues from 48 countries were presented. Both theoretical and empirical papers in this volume cover diverse areas of business economics and finance from many different regions. Therefore it provides a great opportunity to colleagues professionals and students to catch up with the most recent studies in different fields and empirical findings on many countries and regions.

Proceedings of International Joint Conference on Advances in Computational Intelligence Mohammad Shorif Uddin, Jagdish Chand Bansal, 2024-04-01. This book gathers outstanding research papers presented at the 7th International Joint Conference on Advances in Computational Intelligence IJCACI 2023 held in hybrid mode at South Asian University New Delhi India during October 14-15, 2023. IJCACI 2023 is jointly organized by Jahangirnagar University JU Bangladesh and South Asian University SAU India. The book presents the novel contributions in areas of computational intelligence and it serves as a reference material for advance research. The topics covered are collective intelligence, soft computing, optimization, cloud computing, machine learning, intelligent software, robotics, data science, data security, big data analytics, and signal and natural language processing.

Applied Quantitative Finance Mauricio Garita, 2021-09-03. This book provides both conceptual knowledge of quantitative finance and a hands-on approach to using Python. It begins with a description of concepts prior to the application of Python with the purpose of understanding how to compute and interpret results. This book offers practical applications in the field of finance concerning Python, a language that is more and more relevant in the financial arena due to big data. This will lead to a better understanding of finance as it gives a descriptive process for students, academics, and practitioners.

Returns & Volatility of Sectoral Indices of Nifty Dr. T. Peddanna. Generally, the fund managers prefer to include Nifty listed securities in their portfolio because they are the leading stocks of the nation. Using these companies, 11 sectors of stock indices were constructed. On the whole, the analysis of 12-year data starting from April 2002 to March 2014 established two phases of sectoral indices of Nifty: they are pre and post recession periods in the light of sub-prime financial crisis that cropped up across the globe during 2008-09. As this study revealed sector-wise return exposure under different economic conditions, it helps investors to diversify their funds to various sectors which give average return to their portfolios and at lower risk element. However, this study is helped in understanding the risk-return relationship between different sectors of Nifty as well as ARCH and GARCH models to estimate the volatility in the near future in great detail. The direction of the Nifty index is mainly determined by a few sectors in the long run like Bank, Pharma, and Capital Goods indices. Finally, this study enabled the investors to understand the risk and returns of sectoral indices of Nifty to make effective portfolio decisions under different economic conditions to sustain the portfolio with the same objectives till its tenure. This book is useful for Portfolio Managers, Fund Managers, Investment Managers, and Policy makers, Academicians, Research scholars, Post graduate students, and other

commerce and Management students those working on Returns and volatility of stock market indices and securities

Security Analysis and Portfolio Management Shveta Singh, Surendra S. Yadav, 2021-11-06 This book is a simple and concise text on the subject of security analysis and portfolio management. It is targeted towards those who do not have prior background in finance and hence the text veers away from rather complicated formulations and discussions. The course Security Analysis and Portfolio Management is usually taught as an elective for students specialising in financial management and the authors have an experience of teaching this course for more than two decades. The book contains real empirical evidence and examples in terms of returns risk and price multiples from the Indian equity markets over the past two decades that are a result of the analysis undertaken by the authors themselves. This empirical evidence and analysis help the reader in understanding basic concepts through real data of the Indian stock market. To drive home concepts each chapter has many illustrations and caselets citing real life examples and sections called points to ponder to encourage independent thinking and critical examination. For practice each chapter has many numericals questions and assignments.
