Shanghai Electric Power Generation Group:

State Capitalism, Institutional Adaptation, and the Chinese Miracle Barry Naughton, Kellee S. Tsai, 2015-06-09

This volume explores how Chinese institutions have adapted to the new challenges of state capitalism *Gas Turbines for Electric Power Generation* S. Can Gülen, 2019-02-14 Everything you wanted to know about industrial gas turbines for electric power generation in one source with hard to find hands on technical information *Large Chinese State-Owned Enterprises*

Y. Zhang, 2007-12-04 Based upon empirical research this book explores the process of China's corporatization reform and investigates whether the reform has altered the process of strategy formulation and implementation of large Chinese SOEs What processes of ownership restructuring are taking place in the large SOEs and what impact do these changes have

Rising China in the Changing World Economy Liming Wang, 2012-03-12 China's rapid and sustained growth over last thirty years has propelled it to become the world's second largest economy today and potentially the largest in the foreseeable future As one of the first major economies pulling out of recession and the last remaining major socialist country in the world today China presents a challenge to established thinking on the essential primacy of global capitalism and the settled nature of the world system as China becomes more integrated into the world economy and the international system both are themselves potentially transformed as a result of China's involvement This book explores a wide range of issues connected with the impact of China on the global economy and the prevailing international system Subjects covered include China's multinationals international acquisitions the exchange rate research and development and technology transfer China's emerging major business groupings and small and medium sized enterprises **China's Large Enterprises and the**

Challenge of Late Industrialisation Dylan Sutherland, 2003-08-29 Considers the late industrialisation of China showing how government policies have encouraged the development of 120 national champions akin to Japanese keiretsu and South Korean chaebol how these national champions compete with multinational enterprises and how China's rapid and successful late industrialisation does not fit orthodox economic theories The book provides a detailed illustration of these wider issues with a case study of the auto industry **ICEMME 2022** Nikolaos Freris, Qinghai Li, Harsh Kumar, 2023-02-15 It is our great pleasure to have you at the 2022 4th International Conference on Economic Management and Model Engineering ICEMME 2022 which was held in Nanjing China from November 18th to 20th virtual event It is an international forum for academic communications between experts and scholars in the fields of economic management and model engineering The main objective of ICEMME 2022 is to provide a platform to deliberate latest developments and future directions in the fields of economic management and model engineering The conference provided opportunities for the delegates to exchange research ideas and scientific information and established business or research relations for all participants to find global partners for future collaboration

Optimization Planning and Operation of Electric Vehicle Charging Facilities Hengjie Li, Yun Zhou, Donghan Feng, Chen Fang, Nier Wang, 2025-08-25 Optimization Planning and Operation of Electric Vehicle Charging

Facilities A Perspective from China provides an in depth understanding of core theories and advanced technologies in the field Summarizing the latest research the book introduces achievements in optimizing the planning and operation of electric vehicle charging facilities It is dedicated to the scientific planning and efficient operation of charging stations supporting the sustainable growth of the electric vehicle industry The book also delves into frontier issues such as the interaction between electric vehicles and the power grid and participation modes in the electricity market It highlights the application of existing technologies and includes findings from major projects funded by the National Natural Science Foundation of China the Shanghai Science and Technology Commission and the State Grid Corporation of China Offers a comprehensive and practical guide to the optimized planning and operation of electric vehicle EV charging facilities that is based on experience in China Includes the latest research findings on EV charging infrastructure Covers key topics such as EV charging load modeling and prediction charging facility optimization planning operational optimization charging guidance and path planning EV grid interaction and participation in electricity markets

China and the Global Business Revolution P. Nolan,2001-07-26

China has used industrial policies to try to build large corporations that can challenge those based in more advanced countries By the late 1990s the operational mechanism of China s large firms had seen large advances Simultaneously a revolution has taken place in global business systems and China s large firms are even further behind the global leaders than when they began their reforms The WTO will require China to operate rapidly on the global playing field in competition with the world s leading corporations and this increased gap presents a deep challenge for China s business and political leaders Peter Nolan presents here the first in depth case studies of China s large corporations under economic reform combined with systematic benchmarking of these firms against the world s leading corporations The book is an unrivalled resource of information on Chinese businesses and also leads the reader to consider the impact of China s response to its current challenges not only on China itself but on the wider global economy

A Guide to the Top 100 Companies in China

Wenxian Zhang,Ilan Alon,2010 This new reference book providing detailed descriptions of the top 100 major business enterprises in China is a companion book of the recently published Biographical Dictionary of New Chinese Entrepreneurs and Business Leaders by the same editors Together these two publications provide in depth and up to date information for the study and understanding of the fabric of the business sector of China

Power Politics in Asia's Contested Waters

Enrico Fels,Truong-Minh Vu,2016-02-19 This volume offers a comprehensive and empirically rich analysis of regional maritime disputes in the South China Sea SCS By discussing important aspects of the rise of China s maritime power such as territorial disputes altered perceptions of geo politics and challenges to the US led regional order the authors demonstrate that a regional power shift is taking place in Asia Pacific The volume also provides in depth discussions of the responses to Chinese actions by SCS claimants as well as by important non claimant actors

The 19th International Conference on Industrial Engineering and Engineering Management Ershi Qi,Jiang Shen,Runliang Dou,2013-06-25 The International

Conference on Industrial Engineering and Engineering Management is sponsored by the Chinese Industrial Engineering Institution CMES which is the only national level academic society for Industrial Engineering The conference is held annually as the major event in this arena Being the largest and the most authoritative international academic conference held in China it provides an academic platform for experts and entrepreneurs in the areas of international industrial engineering and management to exchange their research findings Many experts in various fields from China and around the world gather together at the conference to review exchange summarize and promote their achievements in the fields of industrial engineering and engineering management For example some experts pay special attention to the current state of the application of related techniques in China as well as their future prospects such as green product design quality control and management supply chain and logistics management to address the need for amongst other things low carbon energy saving and emission reduction They also offer opinions on the outlook for the development of related techniques The proceedings offers impressive methods and concrete applications for experts from colleges and universities research institutions and enterprises who are engaged in theoretical research into industrial engineering and engineering management and its applications As all the papers are of great value from both an academic and a practical point of view they also provide research data for international scholars who are investigating Chinese style enterprises and engineering management
