Zarchy, Leah C. Geer, 2023-08-24 Deaf children experience language deprivation at alarmingly high rates One contributing factor is that most are born to non signing hearing parents who face insurmountable barriers to learning a signed language This Element presents a case for developing signed language curricula for hearing families with deaf children that are family centered and focus on child directed language Core vocabulary functional sentences and facilitative language techniques centered around common daily routines allow families to apply what they learn immediately Additionally Deaf Community Cultural Wealth DCCW lessons build families capacity to navigate the new terrain of raising a deaf child If early intervention programs serving the families of young deaf children incorporate this type of curriculum into their service delivery survey data suggest that it is both effective and approachable for this target population so the rates of language deprivation may decline *American Sign Language Made Easy for Beginners* Travis Belmontes-Merrell, 2022-08-02 Learn American Sign Language the easy way Become a lifelong learner of American Sign Language ASL with this guide for true beginners It breaks down ASL fundamentals and gives you step by step instructions for signing more than 400 vocabulary words organized by practical topics like greetings hobbies times places and more The building blocks of ASL Lay the foundation for ASL learning as you explore the five parameters of signing handshape location movement palm orientation and non manual markers Clear guidance for novices Learn how to sign each vocabulary word with the help of detailed written directions and large full color photos so you know you re doing it right even if it s your first sign ever Lessons and quizzes Put your new skills to the test with themed lessons designed for real world conversations and brief quizzes at the end of each section Make learning ASL fun and easy with this top choice in American Sign Language books for beginners With Justice for All John K. Trammell, 2023-09-22 Social history is only one kind of history Still it is exactly the type of history that disability demands to be told especially due to the universality of the disability experience Doris and Frieda Zames remind us that handicapism is the only ism we all will experience if we live long enough Although disability will always arguably be about physical differences of body mind intellect personality etc its universal nature means that it should logically be the king queen of identity politics while it has long been the pauper This story helps explain why that was and is today and what America s unique and sometimes unpleasant role in the story is This

text attempts not just to represent the American experience with disability but the American experience. The further we move away from 1990 and the passage of the ADA the less that demarcation seems to be distinct and dichotomous and the more America seems to be an abject case study of identity possibility in flux placed squarely at the intersection of the rational and irrational the qualitative and quantitative the old and new the individual and collective and at the nexus of classic liberalism and neomodernism. In fact the ADA was reauthorized in 2008 an indication of the constructivist nature of disability policy. This book is intended to be useful and informative whether as a classroom textbook or as a conversation starter on the coffee table. It also uses the unique tools of the social historian to tell the story. *Teaching and Learning Signed Languages* D. McKee, R.
