QRD-RLS Adaptive Filtering JOSE APOLINARIO JR, 2009-04-05 I feel very honoured to have been asked to write a brief foreword for this book on QRD RLS Adaptive Filtering a subject which has been close to my heart for many years The book is well written and very timely I look forward personally to seeing it in print The editor is to be congratulated on assembling such a highly esteemed team of contributing authors able to span the broad range of topics and concepts which underpin this subject In many respects and for reasons well expounded by the authors the LMS algorithm has reigned supreme since its inception as the algorithm of choice for practical applications of adaptive filtering However as a result of the relentless advances in electronic technology the demand for stable and efficient RLS algorithms is growing rapidly not just because the higher computational load is no longer such a serious barrier but also because the technological pull has grown much stronger in the modern commercial world of 3G mobile communications cognitive radio high speed imagery and so on
