Descubre 3 Chapter 1:

The Falklands Saga Graham Pascoe, 2024-02-15 The Falklands Saga presents abundant evidence from hundreds of pages of documents in archives and libraries in Buenos Aires La Plata Montevideo London Cambridge Stanley Paris Munich and Washington DC some never printed before many printed here for the first time in English and where different in their original languages Spanish French German Italian Latin or Dutch It provides the facts to correct the fallacies and distortions in accounts by earlier authors It reveals persuasive evidence that the Falklands were discovered by a Portuguese expedition at the latest around 1518 19 and not by Vespucci or Magellan It demonstrates conclusively that the Anglo Spanish agreement of 1771 did not contain a reservation of Spanish rights that Britain did not make a secret promise to abandon the islands and that the Nootka Sound Convention of 1790 did not restrict Britain's rights in the Falklands but greatly extended them at the expense of Spain For the first time ever the despairing letters from the Falklands written in German in 1824 to Louis Vernet by his brother Emilio are printed here in full in both the original German and in English translation revealing the total chaos of the abortive 1824 Argentine expedition to the islands This book reveals how tiny the Argentine settlement in the islands was in 1826 33 In April 1829 there were only 52 people and there was a constant turnover of population many people stayed only a few months and the population reached its maximum of 128 only for a few weeks in mid 1831 before declining to 37 people at the beginning of 1833 This work also refutes the falsehood that Britain expelled an Argentine population from the Falklands in 1833 That myth has been Argentina's principal propaganda weapon since the 1960s in its attempts to undermine Falkland Islanders' right to self-determination In fact Britain encouraged the residents to stay and only a handful left the islands A crucial document printed here is the 1850 Convention of Peace between Argentina and Britain At Argentina's insistence this was a comprehensive peace treaty which restored perfect friendship between the two countries Critical exchanges between the Argentine and British negotiators are printed here in detail which show that Argentina dropped its claim to the Falklands and accepted that the islands are British That and the many later acts by Argentina described here definitively ended any Argentine title to the islands The islands' history is placed in its world context with detailed accounts of the First Falklands Crisis of 1764 71 the Second Falklands Crisis of 1831 3 the Years of Confusion 1811 1850 and the Third Falklands Crisis of 1982 the Falklands War as well as a Falklands perspective on the First and Second World Wars including the Battle of the Falklands 1914 and the Battle of the River Plate 1939 with extensive details and texts from German sources The legal status of the Falklands is analysed by reference to legal works to United Nations resolutions on decolonisation and to rulings by the International Court of Justice which together demonstrate conclusively that the islands are British territory in international law and that the Falkland Islanders who have now 2024 lived in their country for over 180 years and for nine generations are a unique people who are holders of territorial sovereignty with the full right of external self-determination

Mothers, Lovers, and Others Cynthia Schmidt-Cruz, 2004-01-01 Provocative reappraisal of the portrayal of women in Julio

Cortázar's short stories *Configurations of a Cultural Scene* Andrew A. Anderson, 2023-01-15 Throughout the 1920s a remarkable number of young writers and artists lived and worked in Madrid creating an atmosphere of effervescence and an upsurge in creativity that has rarely been equalled. These young people acquainting themselves with one another within the span of only a few years came together to form a tightly woven network of both personal and artistic relationships. In *Configurations of a Cultural Scene* Andrew Anderson explores this growing community of artists and writers with a focus on how sites of face-to-face interaction in Madrid fostered creative work and forged young identities. Organizing locations into places of sociability, learning and residence, Anderson offers five case studies that exemplify the significance of these three points of intersection: Rafael Barradas and his tertulia at the Café de Oriente; an artists' studio located on the Pasaje de la Alhambra; women art students at the Academia de San Fernando who lodged at the Residencia de Señoritas; the artist and writer Gabriel García Maroto; and the close relationship between artist Maruja Mallo and poet Rafael Alberti. Departing from conventional approaches that foreground the trajectories of individual careers, Anderson privileges the lived experience of artists and writers in his analysis of a rich cultural scene held together by cooperation, exchange and interpersonal connections.

The authors emphasize promoting the development and application of new knowledge and technologies to promote innovation in processes, products, services and business models, promoting public-private collaboration. With contributions from experts representing varied interests throughout the tourism industry, the book encourages the involvement of economic and social agents to raise awareness of current environmental, economic and technological challenges.

Writing Across Cultures Angel Rama, 2012-05-29 Angel Rama was one of twentieth-century Latin America's most distinguished men of letters. *Writing across Cultures* is his comprehensive analysis of the varied sources of Latin American literature. Originally published in 1982, the book links Rama's work on Spanish American modernism with his arguments about the innovative nature of regionalist literature and it foregrounds his thinking about the close relationship between literary movements such as modernism or regionalism and global trends in social and economic development. In *Writing across Cultures*, Rama extends the Cuban anthropologist Fernando Ortiz's theory of transculturation far beyond Cuba, bringing it to bear on regional cultures across Latin America where new cultural arrangements have been forming among indigenous, African and European societies for the better part of five centuries. Rama applies this concept to the work of the Peruvian novelist, poet and anthropologist José María Arguedas whose writing drew on both Spanish and Quechua, Peru's two major languages and, by extension, cultures. Rama considered

Arguedas's novel *Los ríos profundos* Deep Rivers to be the most accomplished example of narrative transculturation in Latin America Writing across Cultures is the second of Rama's books to be translated into English *Cultural Encounters in Contemporary Spain* Debra Faszler-McMahon, 2010-07 Previous critical studies have focused on feminist approaches to Janes's oeuvre This study seeks to expand those discussions through an analysis of the aesthetics of cultural otherness rather than simply gendered otherness within Janes's prolific literary production OpenSocial Network Programming Lynne Grewe, 2009-04-13 OpenSocial is a set of common application programming interfaces for Web based social network applications As the first book on OpenSocial this valuable resource discusses the unique area of social networking and the needs and different attributes of social network applications You'll get step by step instructions for creating OpenSocial applications for multiple platforms and explore application development and deployment using integration technologies like the new Sun Zembly Platform Plus you'll examine newer technologies like the Sun Platform that allows even non-programmers the ability to mash up applications **WHAT ARE WE?** José Luis Manzanares Japón, 2021-06-01 Science has failed to explain the deep nature of reality While it surprises us every day with amazing new discoveries that make life more pleasant it ignores the real basis of our existence Its reductionist wager on materialism has never been able to specify the nature of the spirit or explain its decisive role in the great transformations the world undergoes Why does the ambition of an enlightened person provoke a war that kills millions of lives or the word of a prophet radically change the future of a society It has not even taken on the task of establishing a theory of love with the excuse that it is the fruit of chemical reactions It thus places it on the same level as indigestion Nor has it found the material mechanisms of physics Existence is guided by mathematical equations that act as laws that Nature must follow but nobody knows why they are obeyed Gravity attracts us without our being able to perceive the force that tugs at our feet and drags us to the ground The same is true of electric charges No one can explain why a wavenumber is able to carry energy indefinitely through a vacuum or how information can travel through the universe faster than light We do not know what energy is or how it is transformed Even the Big Bang is doubtful because it violates the law of energy conservation To top it all our inability to create life in the laboratory is as inexplicable as it is astonishing The great thinkers of physics are waiting for disruptive proposals to make sense of it all In this book Jose Luis Manzanares offers us a thesis that responds to so much uncertainty and dares to reveal the great secret of reality Ephemeral Histories Camilo D. The Cultural Roots of Strategic Intelligence Gino LaPaglia,2019-11-20 Strategic Intelligence is a form of meaning that promises the possibility of strategic advantage dignity the achievement of objective and the fulfillment of potential in hostile environments In The Cultural Roots of Strategic Intelligence Gino LaPaglia demonstrates that the strategic aspect of reason arising in human experience encoded as value and born by culture as a strategic resource has been encoded as values that have been memorialized in culturally authoritative sources in various Eurasian cultures for thousands of years These sources have validated a strategic orientation in the world legitimized the strategist as a heroic identity and transmitted a coherent world view that enables the practitioner of strategy to overcome asymmetric threat By excavating the provenance of strategic thought expressed in the cultural identity of the strategist in the most culturally authoritative mythological literary philosophical and religious sources and excavating the underlying strategic values expressed in cultural products LaPaglia demonstrates that the strategic aspect of human rationality is one of the most basic structural dynamics of human meaning and that the transmission of this strategic way of being and acting in the world offers hope for life s underdogs

Philosophers in the Technological Age Ulrich Richter Morales,2023-04-26 Greek philosophers built great discussions about reality which are still current in our times and still inspire today s great thinkers From mathematical teachings by Pythagoras encompassing Plato s and Aristotle s ideas these great discussions have been essential for our present intellectual development Today however this role has been adopted by a new class of visionaries Brought together by this new Platonic Academy based in Stanford University devoted to proving and making use of the supremacy of numbers and mathematics in the digital world intent on finding the new Holy Grail embodied in the perfect algorithm present time s entrepreneurs of new technologies have radically transformed for good or otherwise the world as we know it Ulrich Richter Morales delves deep into the legacy sometimes clear sometimes mystical and esoteric of the Pythagoreans in their diverse historical incarnations He particularly emphasizes their dominant role in these digital times while he introduces a debate regarding the sort of machines we ought to develop Elon Musk Steve Jobs Bill Gates Jeff Bezos

Larry Page and Sergey Brin among others are declared heirs of the Mathematician from Samos and always engrossed in polemic discussions they are inseparable from our concept of how the world works Getting to know them as persons and as thinkers is a way to better understand modern day life and our role as citizens in the unstable volatile grounds we tread on today

The Spiritual Exercises of Saint Ignatius of Loyola Terence O'Reilly,2020-10-20 In The Spiritual Exercises of Saint Ignatius Loyola Contexts Sources Reception Terence O'Reilly examines the historical theological and literary contexts in which the Exercises took shape The collected essays have as their common theme the early history of the Spiritual Exercises and the interior life of Ignatius Loyola to which they give expression The traditional interpretation of the Exercises was shaped by writings composed in the late sixteenth century reflecting the preoccupations of the Counter Reformation world in which they were composed The Exercises however belong in their origins to an earlier period before the Council of Trent and the full recognition of this fact and of its implications has confronted modern scholars with fresh questions about the sources evolution and reception of the work

Gabriela Mistral's Letters to Doris Dana Velma

García-Gorena,2018-06-15 The Nobel Prize winning poet Gabriela Mistral is celebrated by her native Chile as the mother of the nation even though she spent most of her life in Mexico Europe and the United States Throughout the Spanish speaking world and especially in Chile Mistral was characterized as a sad traditionally Catholic spinster Yet her voluminous correspondence with Doris Dana long believed to be her secretary reveals that the two women were lovers from 1948 until Mistral's death in 1957 These letters published in Spanish in 2010 and now translated for the first time into English provide insight into her work as a poet and illuminate her perspectives on politics especially war and human rights The correspondence also sheds light on the poet's personal life and corrects the long standing misperceptions of her as a lonely single heterosexual woman

Drops of Inclusivity Milagros Denis-Rosario,2022-07-01 Drops of Inclusivity examines race and racism on the island of Puerto Rico by combining a wide angle historical narrative with the individual stories of Black Puerto Ricans While some of these Afro Boricuas such as Roberto Clemente and Ruth Fernández are well known others such as Cecilia Orta and Juan Fal Zarzuela have been largely forgotten if remembered at all Individually and collectively their words and lives speak to the

persistent power of racial hierarchies and responses to them across periods from the Spanish American War at the turn of the twentieth century to Martin Luther King Jr's visit to the island in the early 1960s. Drawing on rich archival research, Milagros Denis Rosario shows how Afro Boricuas denounced, navigated and negotiated racism in the fields of education, law, enforcement, literature, music, the military, performance, politics and more. Each instance of self-determination marks a gain in inclusivity, *gota a gota* or drop by drop as the saying goes in Puerto Rico. This study pays homage to them.

Sites of Memory in Spain and Latin America Aída Díaz de León, Marina Llorente, Marcella Salvi, 2015-09-03. *Sites of Memory in Spain and Latin America* is a collection of essays that explores historical memory at the intersection of political, cultural, social and economic forces in the contexts of Spain and Latin America. The essays here focus on a variety of forms of memory from the most concrete to the performative that resist forgetting and unite individuals against hegemonic memory. The volume comprises four thematic sections that focus on Chile, Spain, Argentina, Venezuela, Mexico, Peru and the Dominican Republic. Keeping in line with the concept informing this collection that the past returns politically to haunt the present, the four sections move from the contemporary context to the colonial and pre-Columbian eras in Latin America. For all its diversity, the researchers' interdisciplinary methodology displayed in this collection brings to light processes that would otherwise have remained illegible under a more narrow interpretative approach to historical memory. This volume focuses on the processes of remembering in geographies that have been transformed by violence and conflict in Spain and Latin America. In the cases investigated, witnessing trauma and testimony speak to the urgency of truth and justice; historical memory therefore is ultimately a political act.
