Construction Technology For Tall Buildings (4th Edition) Yit Lin Michael Chew, 2012-06-04 This book introduces the latest construction practices and processes for tall buildings from foundation to roof. It attempts to acquaint readers with the methods, materials, equipment, and systems used for the construction of tall buildings. The text progresses through the stages of site investigation, excavation and foundations, basement construction, structural systems for the superstructure, site and material handling, wall and floor construction, cladding, and roof construction. The construction sequence, merits, and limitations of the various proprietary systems commonly used in these respective stages are discussed. This fourth edition also includes several new topics not covered in the previous edition. The target readers are practitioners and students in the related professions including architecture, engineering, building, real estate, construction project and facilities management, and quantity and land surveying. **SPI/CI FirstSource Directory** Institute of the Society of the Plastics Industry, 1998-01-16 **The Indian Concrete Journal**, 1996 *Construction Technology For Tall Buildings (2nd Edition)* Yit Lin Michael Chew, 2000-12-29 This new edition of *Construction Technology for Tall Buildings* comprehensively revises and expands the previous edition, incorporating new topics and many new figures.
