Digital Speech Processing Using Matlab Signals And Communication Technology:

Digital Speech Processing Using Matlab E. S. Gopi, 2013-12-03 Digital Speech Processing Using Matlab deals with digital speech pattern recognition speech production model speech feature extraction and speech compression The book is written in a manner that is suitable for beginners pursuing basic research in digital speech processing Matlab illustrations are provided for most topics to enable better understanding of concepts This book also deals with the basic pattern recognition techniques illustrated with speech signals using Matlab such as PCA LDA ICA SVM HMM GMM BPN and KSOM

Data Management, Analytics and Innovation Neha Sharma, Amol C. Goje, Amlan Chakrabarti, Alfred M.

Bruckstein, 2024-07-27 This book presents the latest findings in the areas of data management and smart computing big data management artificial intelligence and data analytics along with advances in network technologies The book is a collection of peer reviewed research papers presented at 8th International Conference on Data Management Analytics and Innovation ICDMAI 2024 held during 19 21 January 2024 in Vellore Institute of Technology Vellore India It addresses state of the art topics and discusses challenges and solutions for future development Gathering original unpublished contributions by scientists from around the globe the book is mainly intended for a professional audience of researchers and practitioners in academia and industry The book is divided into two volumes Student Manual for Digital Signal Processing with MATLAB

Contactless Human Activity Analysis Md Atiqur Rahman Ahad, Upal Mahbub, Tauhidur Rahman, 2021-03-23 This book is a truly comprehensive timely and very much needed treatise on the conceptualization of analysis and design of contactless multimodal sensor based human activities behavior understanding intervention From an interaction design perspective the book provides views and methods that allow for more safe trustworthy efficient and more natural interaction with technology that will be embedded in our daily living environments The chapters in this book cover sufficient grounds and depth in related challenges and advances in sensing signal processing computer vision and mathematical modeling It covers multi domain applications including surveillance and elderly care that will be an asset to entry level and practicing engineers and scientists See inside for the reviews from top experts Contemporary Communication Systems Using MATLAB John G.

Proakis, Masoud Salehi, 2000 This supplement to any standard communication systems text is one of the first books to successfully integrate the use of MATLAB in the study of communication systems concepts and problems It has been developed for instructors and students who wish to make use of MATLAB as an integral part of their study The former will find the means by which to use MATLAB as a powerful tool to motivate students and illustrate essential theory without having to customize the applications themselves the latter will find relevant problems quickly and easily The book includes numerous MATLAB based simulations and examples of communication systems while providing a good balance of theory and hands on computer experience This Updated Printing revises the book and MATLAB files available for downloading from the
