Digital Discourse Language In The New Media:

Digital Discourse Crispin Thurlow, Kristine Mroczek, 2011-10-26 Digital Discourse offers a distinctly sociolinguistic perspective on the nature of language in digital technologies. It starts by simply bringing new media sociolinguistics up to date, addressing current technologies like instant messaging, text messaging, blogging, photo sharing, mobile phones, gaming, social network sites, and video sharing. Chapters cover a range of communicative contexts: journalism, gaming, tourism, leisure, performance, public debate, communicators (professional and lay), young people and adults, intimates and groups, and languages (Irish, Hebrew, Chinese, Finnish, Japanese, German, Greek, Arabic, and French). The volume is organized around topics of primary interest to sociolinguists, including genre, style, and stance. With commentaries from the two most internationally recognized scholars of new media discourse, Naomi Baron and Susan Herring, and essays by well-established scholars and new voices in sociolinguistics, the volume will be more current, more diverse, and more thematically unified than any other collection on the topic.
