Curriculum Evaluation In Malaysia: Aspirations And Realities Vincent Pang, 2021-06-06 Curriculum Evaluation In Malaysia Aspirations And Realities Curriculum evaluation is among the popular areas of research in education in Malaysia This inaugural lecture book aims to compare the aspirations and realities of curriculum evaluation in the country The aspirations are based on concepts and purposes of curriculum evaluation and guidelines provided by some popular curriculum evaluation models On the other hand the realities of curriculum evaluation in Malaysia are presented based on a review of 50 randomly sampled reports of curriculum evaluation The review resulted in a summary of the current state of curriculum evaluation practices in Malaysia The comparison of the aspirations and realities of the curriculum evaluation practices found a diversity of approaches and methods used all studies have evaluative features most of the evaluation findings are for specific implications to the programme evaluated the terms curriculum evaluation programme evaluation and curriculum research are used interchangeably less than half of the reports did not involve the use of an evaluation model a large proportion of curriculum evaluation in higher education projects focused on outcome based education and entrepreneurship education and only a handful of the evaluation projects were conducted by decision and policy makers at ministerial level In the light of these findings implications to policy makers and curriculum practitioners are discussed
