Approaches to Arabic Popular Culture Koneering, Peter, Wiedemann, Felix, Behzadi, Lale, 2021-09-27 Over recent years Arabic popular culture has become a focal point of West Asian and North African studies Most of the new research dealing with it concentrates on the popular as opposed to an intellectual high culture far from the harsh and hierarchically organized reality many Arabic speaking societies face today Popular cultural practices are thus seen as a rejection of the elite and a stance against those who have something to lose within paralyzed and conservative communities Albeit not denying the subversive political potential associated with these practices this volume intends to take a more nuanced and broader perspective Arabic popular culture might engage with emancipatory claims but it might as easily follow the capitalist rulebook of global marketing It might fight against oppressive authorities yet it can equally become their symbol

Approaches to Arabic Popular Culture therefore closely looks at the aesthetic implications of a topic ranging from Lebanese hip hop over Algerian pop novels to jihadi chants in the Islamic State as well as from Egyptian mahraganat music over sarcastic stories about hash dens and time travel in downtown Cairo to Saudi Arabian YouTube influencers Thus the theoretical scope widens and the reader is taken on a delightful journey to the unsettling pleasures of contemporary Arabic art and culture
