Diritto Immigrazione E Cittadinanza Fascicolo N 1 2017:

Migration Law and the Externalization of Border Controls Anna Liguori, 2019-03-27 Over the last few decades both the European Union and European States have been implementing various strategies to externalize border controls with the declared intent of saving human lives and countering smuggling but with the actual end result of shifting borders circumventing international obligations and ultimately preventing access to Europe What has been principally deplored is the fact that externalizing border controls risks creating legal black holes Furthermore what is particularly worrying in the current European debate is the intensification of this practice by multiple arrangements with unsafe third countries exposing migrants and asylum seekers to serious human rights violations This book explores whether European States can succeed in shifting their responsibility onto Third States in cases of human rights violations Focusing in particular on the 2017 Italy Libya Memorandum of Understanding the book investigates the possible basis for triggering the responsibility of outsourcing States The second part of the book examines how the Italy Libya MoU is only a small part of a broader scenario exploring EU policies of externalization A brief overview of the recent decisions of the EU Court vis vis two aspects of externalization the EU Turkey statement and the issue of humanitarian visas will pave the way for the conclusions since in the author's view the current attitude of the Luxembourg Court confirms the importance of focusing on the responsibility of European States and the urgent need to investigate the possibility of bringing a claim against the outsourcing States before the Court of Strasbourg Offering a new perspective on an extremely topical subject this book will appeal to students scholars and practitioners with an interest in European Law International Law Migration and Human Rights **Genere sessualità e**

Antropologia e servizi Cecilia Gallotti, Federica Tarabusi, 2024-06-12 Se da tempo l'etnografia si confronta con cambiamenti e sfide che la pongono in dialogo sempre più stretto con operatori e professionisti dei servizi appare ancora marginale in Italia una riflessione organica orientata all'analisi antropologica di questi contesti e alla sua traduzione operativa per supportare processi di cambiamento Con tale intento il volume raccoglie le esperienze auto etnografiche e professionali che alcune antropologhe e antropologi italiane stanno conducendo in diversi ambiti dei servizi sociali sanitari e dell'accoglienza Impegnate su diversi piani che spaziano dalla ricerca azione alla formazione intervento alla progettazione

alla valutazione le autrici e gli autori descrivono i loro processi di lavoro mostrando una formidabile capacità di sperimentare metodi e di elaborare soluzioni contestuali mettendoli a servizio di realtà contraddittorie e in continua trasformazione. L'analisi delle loro traiettorie fornisce da un lato un primo passo per disegnare un campo di studi che nonostante il moltiplicarsi delle esperienze sul campo appare ancora sfocato e in costruzione; d'altro lato evidenzia le intersezioni fra sapere e saper fare antropologico mostrando come proprio la circolarità tra ricerca e applicazione possa rendere generativa l'antropologia nei servizi e utile a chi li gestisce e li abita.

Il sistema di accoglienza in Italia. Esperienze, resistenze, segregazione

Gennaro Avallone, 2019-02-10 Migrazioni e accoglienza sono state trasformate in un affare economico e politico. Trafficanti, mondo delle imprese, politici e addirittura una parte dei gestori dei centri di accoglienza alimentano i propri affari sulla pelle delle persone migranti le quali trattate come fossero merce di scambio tanto economico quanto ideologico scompaiono in questo gioco al massacro di cui sono solo oggetto. E insieme scompaiono dall'attenzione i rapporti di potere nei quali esse si muovono. Questo libro rompe questa costruzione coloniale che riduce le persone migranti al silenzio e lo fa attraverso una presa di parola collettiva eretica e meticciasca. A scrivere, spiegare e far comprendere cosa accade sono insieme persone che hanno vissuto nel sistema di accoglienza: mediatori e mediatrici, linguistico-culturali, attiviste ed attivisti, lavoratori e lavoratrici del settore, avvocati, ricercatori. Dunque finalmente un libro sul sistema di accoglienza delle persone richiedenti asilo e rifugiate scritto dall'interno del sistema con l'obiettivo di metterne in evidenza limiti, forme di segregazione e resistenze in movimento. Sapendo che bisogna superare questo sistema nel nome della giustizia sociale e della partecipazione contro le politiche razziste e xenofobe che si stanno imponendo in Italia e nel resto d'Europa. La cittadinanza tra giustizia e democrazia

Stefano Grassi, Massimo Morisi, 2023 Il volume propone un ritratto di Sergio Caruso come studioso, filosofo e intellettuale e riflette sulla sua esperienza accademica e culturale. La pluralità di contributi che il libro raccoglie riassunta in una parola chiave a lui assai cara: cittadinanza. A essa Caruso, al culmine della sua maturità, ha dedicato pagine di grande rilievo mostrando per usare le sue parole come questa nozione in origine un concetto esclusivamente giuridico abbia acquisito una crescente importanza nelle scienze sociali e nella teoria politica in quanto non più e non solo insieme statico di diritti e doveri legati all'appartenenza del soggetto alla comunità politica bensì fascio di funzioni sociali e forza collettiva emergente. Quindi leva di nuove domande di democrazia.

Solidarity: A Normative Principle Guido Alpa, 2023-05-17 The term solidarity has acquired a commendable meaning of mutual responsibility yet remains suspect because it has been invoked in too broad a spectrum of cultural contexts ranging from fascist ideology to human rights. This essential book shows how solidarity may be should be conceived as a normative principle with pressing legal content instrumental to the realisation of the social ends of today's democratic polities. The author for the first time in such depth documents the interweaving of legal norms with social

ideas and values focusing on the use of the principle of solidarity in the European Union's bodies and in its Member States. There are detailed examinations of how the principle appears in such realms as the following: national constitutions, welfare systems, regulation of contracts, social effects of legal rules, women's rights, the social market economy, the social doctrine of the Catholic Church, affirmation of corporate social responsibility and sustainability and corporate governance. The author describes how each context contributes to a meaningful elaboration of the concept of solidarity, thus synthesising and extending prior work on the subject. Following Kant's dictum that the solidarity of mankind is a to be or not to be a matter of life or death, in today's difficult and calamitous times it is appropriate to rethink the principle of solidarity as the reason for living, living fully and not just surviving in a social agglomeration we call a community. Decoding solidarity in order to fully understand its potentialities, misrepresentations and mystifications has therefore become a task entrusted to jurists. For this reason, this matchless book will prove invaluable for lawyers, judges and policymakers, all of whose professions demand authoritative knowledge of the legal relations among individuals and among legal entities.

La criminalità femminile AA. VV., 2021-03-25T00:00:00+01:00. Carnefici o vittime. Delinquenti stereotipate oppure protagoniste letterarie di una violenza trasgressiva e anti patriarcale. Sono solo alcuni dei punti di osservazione di questa indagine multidisciplinare sulla criminalità femminile. L'analisi empirica della delinquenza delle donne giudicate nei Tribunali di Milano e Ragusa si confronta con saperi extra giuridici: dalla storia alla letteratura, dalla sociologia alla criminologia. Attraverso la ricchezza e la varietà dei punti di vista sulle motivazioni e sulla responsabilità delle donne autrici di reato, questo volume cerca di gettare un po' di luce su un fenomeno poco indagato.

Presenza migrante tra spazi urbani e non urbani AA. VV., 2021-09-02T00:00:00+02:00. Il libro si propone di riflettere attraverso uno sguardo etnografico sulla relazione tra la presenza migrante e i contesti geografici: urbani, non urbani, in cui si colloca, facendo emergere i significati strutturali, sociali e simbolici che tale relazione implica per i soggetti accolti e per le società accoglienti. Esistono numerose modalità di accoglienza dei migranti praticate con caratteristiche simili, ma in contesti socio-politici e geografici diversi dalle istituzioni statali, internazionali e non governative. Nonostante le similitudini, la presenza migrante assume forme diverse e plasma una particolare idea di spazio e di ordine. Questo volume mette a confronto diverse esperienze etnografiche svolte in contesti europei ed extraeuropei: le ricerche descrivono la forma fisica degli spazi abitati dalle persone migranti, riflettono sulle reciproche influenze tra presenza migrante e spazio urbano, non urbano, osservano le dinamiche economiche, culturali, sociali e politiche in atto e infine analizzano le relazioni, le conflittualità e le negoziazioni tra i diversi soggetti implicati.

Migration, New Nationalisms and Populism Rada Ivekovic, 2022-01-20. This book examines the antagonistic relationship between new European nationalisms as these often go hand in hand with populism and the phenomenon of migration. Migration has become a significant issue both in Europe and the whole world. Although it has always existed, much of public opinion sees it now as a problem. The latter has been exaggerated through a crisis in hospitality exacerbated by the relatively recently constructed and misplaced feeling of a

civilisational threat from islam Migration is then countered by the escalation of new nationalisms at least some of which are supported by populism This book offers an understanding of this conjunction of migration and nationalism in the post cold war European context More specifically the book takes up how the end of the simplified cold war cognitive binary means an unprecedented epistemological confusion and depoliticisation which takes migration as its target but could resort to other targets too Discussing the postcolonial background to the new migrations the book also considers womens rights postsocialism and the relevance of the current pandemic as the issue of migration is addressed in the context of the European crisis ridden present This wide ranging interrogation of how contemporary European migration is conceived and understood will appeal to students academics activists policy makers and others with interests in contemporary migration new nationalisms populism feminism colonial postcolonial and decolonial issues as well as socialism and postsocialism
