Practice is a fresh approach to the first semester of the 1L legal writing and research course designed to guide students through their development of the essential skills needed to pass the bar and practice law. The coursebook combines practice oriented case files with more theoretical background text eliminating the need for instructors to create their own case files. The three cases included in the text teach students new skills and give them the chance to practice ones they've already learned. The case files are meant to represent the type of information students will encounter in practice and are also similar to the File and Library found on the Multi State Performance Test MPT. This unique text will be published at one year intervals each version featuring new case files. This will prevent students from accessing the work product produced by students in previous years. Each version will be on a three year revision cycle. Features: The text focuses on skills essential to passing the bar and to practicing law. Three fully developed case files teach students new skills presented in the preceding expository text while also practicing skills presented earlier in the text. Allowing students to practice new skills and master older ones cements their abilities. Case files are true to practice. Case files are also similar to the File and Library found on the MPT. Three versions will be sold at one year intervals each featuring entirely new case files. Each version will be on a three year revision cycle. This will prevent students from accessing the work product produced by students in previous years.

Navigating Law School's Waters Patricia Grande Montana, 2014-02-21 Law school particularly the first year can be a rather intimidating and challenging experience for many students. This book is designed to give students the tools they need to successfully navigate their way through it. It introduces students to the fundamentals of legal analysis and writing and teaches them how to read and brief cases, outline, study, master law school exams and care for their physical and emotional well being. In short, it prepares students for every aspect of their journey through law school. Unlike other introduction to law school texts, this book is unique in that it takes a cognitive approach to its instruction. It is premised on the belief that students learn new information best when they have a schema or framework that allows them to think logically about the information. Thus, it routinely draws on non legal examples when introducing new topics and skills and spends substantial time explaining why law students are expected to read and brief cases, outline, study and write exam answers the way they are. Additionally, this book builds upon the same core problems throughout, including the chapter exercises, so that students can more easily master the relevant skills. Every concept is illustrated and every chapter includes exercises that encourage students to apply what they have just learned. Accordingly, this book provides more than just written instructions on how to navigate law school's waters. It shows law students how to do so, thereby allowing them to sail smoothly through the experience with great skill and confidence. Patricia Grande Montana is a Professor of Legal Writing at St John's University School of Law. She earned her B.A. in Political Science and Psychology from Wellesley College magna cum laude and her J.D. from Georgetown University Law Center cum laude. Before joining the law faculty at St John's, she was a litigator at Latham Watkins concentrating on commercial and intellectual property matters. At St John's, she teaches Legal Writing and Drafting.

Federal Civil Practice She is also the founder and Director of the Street Law Legal Education in the Community Program where law students teach a practical law course to high school students in the community She is a member of Phi Beta Kappa and the New York Connecticut and Massachusetts state bar associations Professor Montana has authored and presented many articles on legal writing theory and pedagogy as well as professional skills instruction [First Year Law School Review](#) Bam Yum Hagin Law Books,2014-12-08 A law school book A Smart review of 1st year law the famous Big Rests study method LOOK INSIDE This incisive detailed material is a Bam Yum law books bar examiner s choice as well as an editor s choice for first year law school review Contracts Criminal law and Torts law are reviewed from the bar and baby bar examiner s point of view [Strategies and Tactics for First Year Law](#) Kimm Alayne Walton,1990 **Strategies & Tactics for the First Year Law Student** Kimm Alayne Walton,Lazar Emanuel,1997 Learn the Secret of Top Exam Performance Every first year law student arrives at law school wondering if he or she has what it takes to make it through the grueling first year Strategies How to use the Internet as a resource the single study technique that can add a whole letter grade to your final score the secret of taking notes that tell you what will be on the final exam Nine steps to writing exceptional exam answers How to guarantee you ll never miss a material issue on an exam Why highlighting your text can hurt you more than help you How to determine your professor s personality profile [First Year Law Outlines](#) Hugh Reed,2007-10-01
