Managing Brand Equity David A. Aaker, 2009-12-01 The most important assets of any business are intangible its company name brands symbols and slogans and their underlying associations perceived quality name awareness customer base and proprietary resources such as patents trademarks and channel relationships These assets which comprise brand equity are a primary source of competitive advantage and future earnings contends David Aaker a national authority on branding Yet research shows that managers cannot identify with confidence their brand associations levels of consumer awareness or degree of customer loyalty Moreover in the last decade managers desperate for short term financial results have often unwittingly damaged their brands through price promotions and unwise brand extensions causing irreversible deterioration of the value of the brand name Although several companies such as Canada Dry and Colgate Palmolive have recently created an equity management position to be guardian of the value of brand names far too few managers Aaker concludes really understand the concept of brand equity and how it must be implemented In a fascinating and insightful examination of the phenomenon of brand equity Aaker provides a clear and well defined structure of the relationship between a brand and its symbol and slogan as well as each of the five underlying assets which will clarify for managers exactly how brand equity does contribute value The author opens each chapter with a historical analysis of either the success or failure of a particular company s attempt at building brand equity the fascinating Ivory soap story the transformation of Datsun to Nissan the decline of Schlitz beer the making of the Ford Taurus and others Finally citing examples from many other companies Aaker shows how to avoid the temptation to place short term performance before the health of the brand and instead to manage brands strategically by creating developing and exploiting each of the five assets in turn

Building Strong Brands David A. Aaker, 2011-11-08 As industries turn increasingly hostile it is clear that strong brand building skills are needed to survive and prosper In David Aaker s pathbreaking book Managing Brand Equity managers discovered the value of a brand as a strategic asset and a company s primary source of competitive advantage Now in this compelling new work Aaker uses real brand building cases from Saturn General Electric Kodak Healthy Choice McDonald s and others to demonstrate how strong brands have been created and managed A common pitfall of brand strategists is to focus on brand attributes Aaker shows how to break out of the box by considering emotional and self expressive benefits and by introducing the brand as person brand as organization and brand as symbol perspectives The twin concepts of brand identity the brand image that brand strategists aspire to create or maintain and brand position that part of the brand identity that is to be actively communicated play a key role in managing the out of the box brand A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands Aaker shows how to manage the brand system to achieve clarity and synergy to adapt to a changing environment and to leverage brand assets into new markets and products Aaker also addresses practical management issues introducing a set of brand equity measures termed the brand

equity ten to help those who measure and track brand equity across products and markets He presents and analyzes brand nurturing organizational forms that are responsive to the challenges of coordinated brands across markets products roles and contexts Potentially destructive organizational pressures to change a brand s identity and position are also discussed As executives in a wide range of industries seek to prevent their products and services from becoming commodities they are recommitting themselves to brands as a foundation of business strategy This new work will be essential reading for the battle ready

Managing Brand Equity David A. Aaker,2000-07 The most important assets of any business are intangible its company name brands symbols and slogans and their underlying associations perceived quality name awareness customer base and proprietary resources such as patents trademarks and channel relationships These assets which comprise brand equity are a primary source of competitive advantage and future earnings Few people understand brand equity and how it must be implemented Provides a clear and well defined structure of the relationship between a brand and its symbol and slogan as well as each of the five underlying assets which clarifies exactly how brand equity does contribute value Illustrated
