Lilianna Z. Pillon, 2007-11-28 With mounting pressure to extract petroleum from oil sands and other unconventional sources oil refineries must adapt their processing methods to handle increasingly heavy crude oils Unlike traditional crude oils the properties of heavier crude oils include higher viscosity metal salt and acid content This causes their interfacial properties to deteriorate leading to problems such as sedimentation foaming emulsification rust and corrosion all of which make the manufacture transportation and storage of petroleum products more difficult Interfacial Properties of Petroleum Products examines conventional and non conventional processing techniques for crude oils and documents their effects on the composition and properties of petroleum products at the oil solid oil air oil water and oil metal interfaces Focusing on surface activity the author examines the undesirable effects of processes such as solvent extraction

desalting dewaxing catalyst deactivation and hydroprocessing as well as trace element and water contamination With each process the author presents methods for improving interfacial properties including the use of surface active additives demulsifiers antifoaming agents and corrosion rust inhibitors A distinctive and up to date source of materials published together for the first time *Interfacial Properties of Petroleum Products* will help engineers design more cost effective and resource efficient processing methods for heavier crude oils based on the properties of the crude oil extracted Process Chemistry of Lubricant Base Stocks Thomas R. Lynch, 2007-09-21 Advances in processing methods are not only improving the quality and yield of lubricant base stocks they are also reducing the dependence on more expensive crude oil starting materials *Process Chemistry of Lubricant Base Stocks* provides a comprehensive understanding of the chemistry behind the processes involved in petroleum base stock p **Official Gazette of the United States Patent and Trademark Office** United States.
