Managerial accounting is the process of identifying measuring analyzing interpreting and communicating information in pursuit of an organization s goals Managerial accounting is an integral part of the management process and managerial accountants are important strategic partners in an organization s domestic and international management teams Managerial accounting provides the essential data with which the organizations are actually run Managerial accounting is also termed as management accounting or cost accounting Financial accounting provides the scorecard by which a company s overall past performance is judged by outsiders Managerial accountants prepare a variety of reports Some reports focus on how well managers or business units have performed comparing actual results to plans and to benchmarks **Value Based**

Performance Measures Nils Eikermann,2020-08-19 Nils Eikermann describes the framework conditions for the application of value based performance measures and critically analyses selected ones The disclosure of value based performance indicators is important in order to demonstrate the successful management of a company and to satisfy the increasing information needs of investors However companies adapt the developed theoretical concepts of value based performance measures to their practical needs and thus investors are no longer able to compare the performance of companies In addition there is a variety of different metrics from which companies can choose The empirical study aims to reduce existing research gaps and is divided into three parts the analysis of annual reports of selected European companies the calculation of a

standardised value based performance measure and a value relevance study in the form of an association study
