Steger's Globalization Everest Media,2022-05-07T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The term globalization has been used in both the popular and academic press to describe a process a condition a system a force and an age However these concepts have very different meanings and their indiscriminate usage leads to confusion 2 There are three concepts that need to be distinguished when discussing globality global imagination global imaginary and globalization Global imagination is the growing consciousness of the world as a single whole Global imaginary refers to people s growing consciousness of the world as a single whole Globalization is the process of transforming our present social condition of conventional nationality into one of globality 3 Globalization is the process of growing global connectivity fueled by digital technologies However it would be foolish to deny that these technological innovations have played a crucial role in the current compression of world time and world space 4 In 2014 American journalist Matt Stopera lost his cell phone which contained thousands of private photos of an Asian man standing in front of an orange tree He received many tweets from Chinese people offering to help find the man and he became an overnight Internet celebrity in China **The SAGE Handbook of Globalization** Manfred B.
