Shusterman, 2021-03-25 The term *ars erotica* refers to the styles and techniques of lovemaking with the honorific title of art But in what sense are these practices artistic and how do they contribute to the aesthetics and ethics of self cultivation in the art of living In this book Richard Shusterman offers a critical comparative analysis of the erotic theories proposed by the most influential premodern cultural traditions that shaped our contemporary world Beginning with ancient Greece whose god of desiring love gave eroticism its name Shusterman examines the Judaeo Christian biblical tradition and the classical erotic theories of Chinese Indian Islamic and Japanese cultures before concluding with medieval and Renaissance Europe His exploration of their errors and insights shows how we could improve the quality of life and love today By using the engine of eros to cultivate qualities of sensitivity grace skill and self mastery we can reimagine a richer more positive vision of sex education

Unlike those who are expected to place their hand on its cover and make an oath the Bible does not tell the truth the whole truth and nothing but the truth The biblical authors only told theirs Even the women actually named are remarkably silent making it easy to believe whatever has been said about their lives throughout the ages The biblical story of Eve impacts modern society on both a conscious and subconscious level Are you aware that the authors of the Garden of Eden creation narrative were greatly influenced by the Persians in the fifth century BCE maybe even taking the basic story from them Did you know Adam had a wife prior to Eve the equality demanding Lilith Do you think it is possible for a single mother to have populated this planet It is well past the time for all of this to be common knowledge Infamous Eve includes many legends

stories and folktales even that of Eve also being the snake in the Garden of Eden but first May Sinclair delves into the genetically induced response that has been handed down as a physical emotional and psychological inheritance to modern people She rips open the seams of the historical records to see the weave of the religious economic and political threads that have endlessly rolled out the same pattern of notions about Eve and her daughters **Evergreen Review** ,1965
