Building a Sustainable Enterprise – The business plan is the most important document in the life of a business. It is the blueprint for the business and the only document that should be read and understood by everyone in the organization. It is the only document that should be updated regularly. It is the only document that should be used to make decisions. It is the only document that should be used to measure success. It is the only document that should be used to communicate the business's vision and mission. It is the only document that should be used to attract investors and lenders. It is the only document that should be used to secure financing. It is the only document that should be used to manage the business. It is the only document that should be used to grow the business. It is the only document that should be used to create a sustainable enterprise.
