Living And Healing Through Horses Eileen J. O'Connor,2011-03-03 This book is a story of what I have learned and important points that are not always stressed when you learn about horses and learn how to ride It also goes on to share the ability of the horse to empower us and how they have over the course of my life always provided a constant source of strength and support There has never and I can truly say never a day so far that I have gone to see my horse or go on a ride and I felt worse than before I went to go ride I m not going to include trips to the hospitals with that thought but that is probably the only exception I feel very fortunate and blessed that I am able to have horses in my life and such a passion for riding horses within me that it remains a constant in my daily life

The Tao of Equus (revised) Linda Kohanov,2024-06-18 After more than 20 years in print an updated edition of the evocative and transformational classic about the powerful bond between women and horses When Linda Kohanov wrote The Tao of Equus over twenty years ago she posed questions that few were asking Do horses make choices How do they seem to know what people are thinking and feeling Are horses spiritual beings What do they have to teach people Why are women so attracted to horses The answers detailed in this extraordinary chronicle that synthesizes science behavioral research and personal insight transformed how we think about one of humanity s oldest companions and established Kohanov at the vanguard of the emerging field of animal assisted learning therapy In this updated edition Kohanov weaves new developments in neurological science and scholarship into her original exploration of spiritual awakening cultural history and mythology The Tao of Equus delves into the mental and spiritual processes behind the magical connections that people often experience with horses It remains a powerful exploration of the feminine wisdom horses model subtleties that women riders have intuited for centuries

Horses Have Wings Peter Van Minnen,2009-01-01 This is a book about the work I have been doing with horses over the last thirteen years I believe that the healing work I do with horses is a gift it comes naturally I have been asked so many times to explain how this kind of communication this kind of healing works Can anyone do this Are you talking to the horse Are you a horse whisperer Are you a shaman So the idea grew of writing a book that would be entertaining and informing which would have general appeal The case histories I offer in this book are unembellished That s how they happened In the book I make mention of a belief I hold which is that a healing can occur in the simplest way simply by recognizing the suffering of another living being and just for a moment sharing that suffering My role is to simply witness the unfolding of that memory that trauma This is often enough to effect healing releasing of what has been held inside and what is holding back that creature of God from fully enjoying its life

Heart of Horses Kathy Pike,2009-04-22 I m thrilled to recommend this book as one of the finest narratives on what horses have to teach people about life love power and connection Linda Kohanov author The Tao of Equus from her Foreword Hope From the Heart of Horses explores and celebrates the relationship and bond possible between horses and humans Each chapter offers a life lesson about trusting one s instincts honestly addressing emotions achieving clarity in communications and releasing negative thoughts Because survival depends on being highly tuned to the thoughts and feelings of others horses sense human intentions rather than what a person offers in facial expressions which creates a remarkable effect on the relationship between these two distinctly different species Among the moving stories the author relates are a horse named Hope who teaches the difference between hope and faith an abused horse s background bringing up old memories and helping the author to move on a young Olympic equestrienne hopeful who discovers and reaffirms her self esteem and a corporate training session in which one participant achieves great success merely by being honest about her fears As you see how these people grow deeper into themselves as they learn the horse s way you too will be inspired to explore and apply the deep and everlasting connection and communication between horses and humans **Correr con los caballos** Eugene
