Intelligent Human Systems Integration (IHSI 2022): Integrating People and Intelligent Systems Tareq Ahram, Waldemar Karwowski, Pepetto Di Bucchianico, Redha Taiar, Luca Casarotto and Pietro Costa,2022-02-24 Proceedings of the 5th International Conference on Intelligent Human Systems

Integration IHSI 2022 Integrating People and Intelligent Systems February 22-24 2022 Venice Italy **Single and Double Bed Machine Knitting** Vikki Haffenden, 2023-06-14 **Single and Double Bed Machine Knitting The Designer's Guide** is an absolute necessity for anyone with a knitting machine. Written in clear and accessible language by an experienced knit designer and educator and using step by step explanations and inspirational examples, this comprehensive guide gives practical insight into knit design and techniques for single bed and double bed knitting. Systematically organised chapters explore the fascinating and inexhaustible possibilities of surface pattern and garment design for machine knitting with or without a ribber. Written by Dr Vikki Haffenden, an experienced knitted textile designer and educator who holds a doctorate in knitting, this book reveals the possibilities of machine knitting whilst discussing exemplifying and contextualising creative design approaches. Using over 500 images and step by step instructions, Vikki shares her knowledge and understanding of knitted textiles from the basic stitch structures and knit constructions to developing these into your own designs for machine knitting. She discusses suitable fibres and yarns for single bed and double bed knitting using the ribber and describes the characteristics of these different knits. To enable unique knit developments, Vikki discusses sourcing design inspiration and explains how to create your own repeating patterns, punchcards and digital patterns. Owners of the even the simplest machines will be inspired by sections on hand manipulating stitches, developing your own colour palette, designing with stripes and garment design. With step by step instruction and in clear language, Vikki explains how to master the ribber, the intricacies of shaping ribs and how to design and knit multi colour double jacquards and other exciting double bed fabrics. In a complete chapter on garment design, she offers practical advice and examples of how to include unique details and takes the mystery out of calculating shaping with the help of ready reckoner shaping tables. Throughout the book, there are tips on machine maintenance plus advice on getting the most from your knitting machine whilst creating unique design outcomes.

Textiles, Identity and Innovation: In Touch Gianni Montagna, Manuela Cristina Paulo Carvalho Figueiredo, 2020-05-19 D_Tex is proposed as a hub around which it is possible to look at textiles in their different forms in order to better understand, study, adapt and project them for the future. It is intended to build a flow of ideas and concepts so that participants can arrive at new ideas and concepts and work them in their own way, adapting them to their objectives and research. D_Tex is intended as a space for sharing and building knowledge around textile material in order to propose new understandings and explorations. Present in all areas of knowledge, the textile material bets on renewed social readings and its evolutions to constantly reinvent itself and enable innovative cultural and aesthetic dimensions and unexpected applications to solve questions and promote new knowledge. D_Tex proposes to promote discussion and knowledge in the different areas where textiles, with all their characteristics, can ensure an important contribution combining material and immaterial knowledge, innovative and traditional techniques, technological and innovative materials and methods but also new organization and service models, different concepts and views on teaching. With the renewed idea of the intrinsic interdisciplinarity of design.

and sharing with different areas that support each other the research and practice of textiles was proposed by the D_TEX Textile Design Conference 2019 held June 19 21 2019 at the Lisbon School of Architecture of the University of Lisbon Portugal under the theme In Touch where as broadly understood as possible different areas of textiles were regarded as needing to keep in touch with each other and end users in order to promote and share the best they can offer for the welfare of their users and consumers Reintroducing Materials for Sustainable Design Mette Bak-Andersen,2021-05-06

Reintroducing Materials for Sustainable Design provides instrumental theory and practical guidance to bring materials back into a central role in the design process and education To create designs that are sustainable and respond to current environmental economic and cultural concerns practitioners and educators require a clear framework for materials use in design and product manufacturing While much has been written about sustainable design over the last two decades outlining systems of sustainability and product criteria to design for material circularity requires a detailed understanding of the physical matter that constitutes products Designers must not just know of materials but know how to manipulate them and work with them creatively This book responds to the gap by offering a way to acquire the material knowledge necessary to design physical objects for sustainability It reinforces the key role and responsibility of designers and encourages designers to take back control over the ideation and manufacturing process Finally it discusses the educational practice involved and the potential implications for design education following implementation addressing didactics facilities and expertise This guide is a must read for designers educators and researchers engaged in sustainable product design and materials
