Ethics and Diversity in Business Management Education Mary Godwyn, 2015-05-23 This book examines business education from the perspective of the social sciences and humanities specifically sociology and

ethics In particular it offers the rare combination of liberal arts and business management education which is used to investigate how aspects of business education might be responsible for and connected to the distribution of wealth that currently dominates the global economy Through interviews with business ethics faculty members students and graduates around the world as well as attendance in business ethics classes and examination of classroom materials the author presents patterns of theory perspectives and outcomes from culturally and geographically diverse business schools This research provides insights into how business ethics educators are responding to the growing diversity in student populations and the dual crises of environmental destruction and lack of ethical stewardship The book also discusses alternative discourses within business schools and makes recommendations for future improvements

Artificial

Intelligence-Augmented Digital Twins Abdalmuttaleb M. A. Musleh Al-Sartawi, Anas Ali Al-Qudah, Fadi

Shihadeh, 2024-01-19 Presently we stand on the threshold of a technological revolution that will drastically change the way we live work and communicate with each other By the current rate scope and complexity this transformation will be as fundamental for society as any other technological paradigm change from the past The industries which are more susceptible to change are technologically oriented industries including banking finance accounting and auditing One of the technological concepts of the technological revolution is the concept of the digital twin The application of digital twins and AI as paired with Internet of Things technologies makes it possible to solve ESG problems on a completely different level Li 2019 for accounting firms and financial institutions These include recycling on demand rational energy consumption smart surveillance cameras for crime tracking and smart branch parking solutions monitoring the wear and tear and conditions of financial technology infrastructures Moreover numerous researchers and practitioners emphasize the significance of innovating sustainable business models and operations Geissdoerfer et al 2018 The digital twin will allow businesses and financial institutions to minimize costs boost customer service and find new ways to generate revenue DTW is accessible now more than ever and many reputable and innovative companies such as Tesla Ericsson and Siemens have adopted it with varying success Therefore this book examines the opportunities challenges and risks of artificial intelligence augmented digital twins for financial operations innovation and sustainable development It focuses on AI and digital twin technologies to furnish solutions for the current industrial revolution including the Metaverse Henceforth this book aims to encourage authors to submit multi disciplinary chapters indicating the current scholarly challenges about the applications and potential of artificial intelligence and digital twins in accounting finance and banking
