written the first book to cover Tomcat from a developer's perspective. He shows you how to use Tomcat by itself as well as with related Apache Jakarta technologies to develop dynamic Web applications and you'll also learn techniques for improving your programming productivity. This practical guide is packed with source code and examples of real world Web applications. Plus you'll discover other exciting features of Tomcat including a code intensive guide to building Web applications that run on Tomcat. Details on using other Apache Jakarta technologies including Struts, Taglibs, Velocity and CVS with Tomcat to form a comprehensive Java Web development process. Complete guidelines for installing, configuring and administering Tomcat including coverage of the new Manager application and Web application deployment process. The companion Web site contains all source code from the book, working demonstrations, links to additional resources.

[Professional Java for Web Applications](#) Nicholas S. Williams, 2014-02-21 The comprehensive Wrox guide for creating Java web applications for the enterprise. This guide shows Java software developers and software engineers how to build complex web applications in an enterprise environment. You'll begin with an introduction to the Java Enterprise Edition and the basic web application, then set up a development application server environment, learn about the tools used in the development process and explore numerous Java technologies and practices. The book covers industry standard tools and technologies, specific technologies and underlying programming concepts. Java is an essential programming language used worldwide for both Android app development and enterprise level corporate solutions. As a step by step guide or a general reference, this book provides an all in one Java development solution. Explains Java Enterprise Edition 7 and the basic web application, how to set up a development application server environment, which tools are needed during the development process and how to apply various Java technologies. Covers new language features in Java 8 such as Lambda Expressions and the new Java 8 Date Time API introduced as part of JSR 310 replacing the legacy Date and Calendar APIs. Demonstrates the new fully duplex WebSocket web connection technology and its support in Java EE 7, allowing the reader to create rich, truly interactive web applications that can push updated data to the client automatically. Instructs the reader in the configuration and use of Log4j 2.0, Spring Framework 4 including Spring Web MVC, Hibernate Validator, RabbitMQ, Hibernate ORM, Spring Data, Hibernate Search and Spring Security. Covers application logging, JSR 340 Servlet API 3.1, JSR 245 JavaServer Pages JSP 2.3 including custom tag libraries, JSR 341 Expression Language 3.0, JSR 356 WebSocket API 1.0, JSR 303 Bean Validation 1.1, JSR 317 338 Java Persistence API JPA 2.1, full text searching with JPA, RESTful and SOAP web services, Advanced Message Queuing Protocol AMQP and OAuth. Professional Java for Web Applications is the complete Wrox guide for software developers who are familiar with Java and who are ready to build high level enterprise Java web applications.
