**Technology and Capital in the Age of Lean Production** Tony Smith,2000-08-10 This book illustrates the continued value of Marxism as a method for analyzing contemporary capitalism despite the new Post Fordist variant termed lean production that is spreading the globe Characterized by knowledge work lean production also includes the mass customization of commodities to consumer desires and the close cooperation of firms within extended networks of production and distribution Its proponents argue that it can unite companies workers and consumers in the harmonious pursuit of

common interests thereby making the Marxian perspective hopelessly outdated However this book is the first to defend Marxian political economy against the claims made by lean production advocates

*Whitaker's Books in Print*,1998 □□□□□□□□□□□□□□,1993 *Dialectics and Contemporary Politics* John Grant,2011-06-09 Dialectics and Contemporary Politics recasts dialectical thought for a post Marxist age in which labour movement politics is just one political option among many The book is organized thematically around concepts such as immanent critique ideology experience and resistance and according to figures who are vital to the present trajectory of dialectics including Hegel Adorno Foucault Jameson and Žižek New analysis of these concepts and theorists is used to show how they transform our understanding of social life as well as offer a way of understanding social transformation Interspersed throughout this theoretical work are dialectical examinations of political phenomena from tolerance democracy and the rise of Barack Obama to state economy relations as well as those of power and resistance A radical and often revolutionary theory of society is pursued that is no longer confined to the terms of Marxism or any other school of thought In this regard a novel advance is made by presenting the history of dialectical criticism as an anti tradition which is defined as a practice that is characterized by a history of discontinuity discord and incompatible applications A theory of dialectics emerges that is flexible coherent and which can account for much more than capitalism and class politics This work will be of great interest to all scholars of Marxism critical theory social and political theory and political philosophy

**The Emergence of Dialectical Theory** Scott Warren,2008-09-15 Scott Warren's ambitious and enduring work sets out to resolve the ongoing identity crisis of contemporary political inquiry In the Emergence of Dialectical Theory Warren begins with a careful analysis of the philosophical foundations of dialectical theory in the thought of Kant Hegel and Marx He then examines how the dialectic functions in the major twentieth century philosophical movements of existentialism phenomenology neomarxism and critical theory Numerous major and minor philosophers are discussed but the emphasis falls

on two of the greatest dialectical thinkers of the previous century Maurice Merleau Ponty and Jürgen Habermas Warren's shrewd critique is indispensable to those interested in the history of social and political thought and the philosophical foundations of political theory His work offers an alternative for those who find postmodernism to be at a philosophical impasse [Profiles and Critiques in Social Theory](#) Anthony Giddens, Fred Reinhard Dallmayr, 1982-01-01 [Matrix and line](#) Bill Martin, 1992-08-17 A comprehensive attempt to assess the politics of deconstruction and the deconstruction of modernist politics **Valences of the Dialectic** Fredric Jameson, 2020-05-05 After half a century exploring dialectical thought renowned cultural critic Fredric Jameson presents a comprehensive study of a misunderstood yet vital strain in Western philosophy The dialectic the concept of the evolution of an idea through conflicts arising from its inherent contradictions transformed two centuries of Western philosophy To Hegel who dominated nineteenth century thought it was a metaphysical system In the works of Marx the dialectic became a tool for materialist historical analysis Jameson brings a theoretical scrutiny to bear on the questions that have arisen in the history of this philosophical tradition contextualizing the debate in terms of commodification and globalization and with reference to thinkers such as Rousseau Lukács Heidegger Sartre Derrida and Althusser Through rigorous erudite examination *Valences of the Dialectic* charts a movement toward the innovation of a spatial dialectic Jameson presents a new synthesis of thought that revitalizes dialectical thinking for the twenty first century *DIALECTICS OF REVOLUTION* Anderson Kevin B Anderson, 2020-09-21 This book collects four decades of writings on dialectics a number of them published here for the first time by Kevin B Anderson a well known scholar activist in the Marxist Humanist tradition The essays cover the dialectics of revolution in a variety of settings from Hegel and the French Revolution to dialectics today and its poststructuralist and pragmatist critics In these essays particular attention is given to Lenin's encounter with Hegel and its impact on the critique of imperialism the rejection of crude materialism and more generally on world revolutionary developments Major but neglected works on Hegel and dialectics written under the impact of the struggle against fascism like Lukács's *The Young Hegel* and Marcuse's *Reason and Revolution* are given full critical treatment Dunayevskaya's intersectional revolutionary dialectics is also treated extensively especially its focus on a dialectics of revolution that avoids class reductionism placing gender race and colonialism at the center alongside class In addition key critics of Hegel and dialectics like Jacques Derrida Michel Foucault Antonio Negri Pierre Bourdieu and Richard Rorty are themselves analysed and critiqued from a twenty first century dialectical perspective The book also takes up the dialectic in global intersectional settings via a reconsideration of the themes of Anderson's *Marx at the Margins* where nationalism race and colonialism were theorized alongside capital and class as key elements in Marxist dialectical thought As a whole the book offers a discussion of major themes in the dialectics of revolution that still speak to us today at a time of radical transformation in all spheres of society and of everyday life **Analytical and Dialectical Marxism** Ian Hunt, 1993

**The New Dialectic and Marx's Capital** Chris Arthur, 2003-12-05 This book both argues for and demonstrates a new

turn to dialectic Marx's Capital was clearly influenced by Hegel's dialectical figures here case by case the significance of these is clarified More it is argued that instead of the dialectic of the rise and fall of social systems what is needed is a method of articulating the dialectical relations characterising a given social whole Marx learnt from Hegel the necessity for a systematic development and integration of categories for example the category of value can be fully comprehended only in the context of the totality of capitalist relations These studies thus shed new light on Marx's great work while going beyond it in many respects *Dialectical Social Science in the Age of Complexity* Ian Trevor King, 2001 This study places dialectical thinking theory and method on a solid scientific footing with respect to the contemporary sciences of holistic relationism and offers a competing even superior philosophy of social science to the mainstream version of positivistic behaviourism It also indicates ways in which a dialectical holistic relational social science will help to shape a more democratic humane style of politics and public policy It subjects mainstream social science to wholesale reorientation and in doing so offers a valid prescription for a post positivistic post behaviourist social science that is scientifically grounded
