Western Industry and Western Industrial Guide ,1950 **Approaching the Past** Marilyn Silverman,P. H. Gulliver,1992 In recent years the study of history has become a central area of inquiry within anthropology While classical anthropology focused on the present current approaches seek to do history by using a variety of conceptual and methodological approaches Approaching the Past is a highly provocative and original volume that examines the issues themes and difficulties emerging out of the new anthropological concern with history Anchoring the discussion with a wide range of ethnographic case studies from Ireland the contributors to this volume establish a sophisticated interdisciplinary dialogue and assess the degree to which anthropological concepts and methodologies can be applied to historical inquiry With a variety of essays representing sociological geographical and historical perspectives Approaching the Past is an invaluable contribution to a discipline that is expanding and reconstituting itself anew **Scientific American** ,1880

Western Industry ,1950 The SAGE Handbook of Qualitative Research Norman K. Denzin,Yvonna S. Lincoln,2011-04-27 Now in its fourth edition this handbook is an essential resource for those interested in all aspects of qualitative research and has been extensively revised and updated to cover new topics including applied ethnography queer theory and auto ethnography Conducting Educational Research R. Murray Thomas,1998-09-30 Emphasizing the comparative aspects of research this introduction to educational research traces the process through five stages choosing what to study including specifying the research problem collecting information organizing and summarizing information interpreting results and reporting the outcomes Each of the stages offers diverse options available to researchers for solving the problems of that stage and a research project checklist at the end of each chapter guides readers in applying the chapter s contents to their own research studies In much educational discourse comparative education has referred solely to the study of educational similarities and differences between regions of the world or between two or more nations This book uses the broader definition of the term to encompass a large body of research including studies focusing on comparisons between local educational systems schools classrooms language groups religious denominations genders social classes and individual students Students who are planning research projects as well as staff members of such organizations as ministries of education school systems bureaus of educational research and educational aid agencies will find this volume indispensable

A Transformatory Ethic of Inclusion Jayne Clapton,2009-01-01 Inclusion is a topical notion which underpins contemporary human service practices and policies within Western Judeo Christian societies Inclusion is most often considered within socio historical and socio political contexts whereby technical and legislative responses are sought However this book explores the question How ethically defensible is the notion of inclusion in relation to people with intellectual disability The book contends that inclusion is a multifaceted complex concept in a dualistic and dichotomous

relationship with exclusion It is argued that historical and contemporary conceptualisations of exclusion for people with intellectual disability have been constructed from various philosophical and theological matrices imbued with particular values about personhood Furthermore it is proposed that the ethical significance of inclusion and exclusion in the context of intellectual disability is defined and perpetuated by expressions of a particular socio symbolic order underpinned by patriarchy and kyriarchy and subjected to two controlling ethics an Ethic of Normalcy and an Ethic of Anomaly Inclusion and exclusion are conceived as phenomena relating to how membership is defined legitimated or repelled by concealed occluding boundaries acting within a patriarchal socio ethical fabric The book argues that Ethical Inclusion is only possible through the rupture of these boundaries by a conceptual tool A Transformatory Ethic of Inclusion This conceptual instrument of rupture embraces the scholarship of feminist ethics and feminist theology Such a rupture requires examining the ways traditional ethical frameworks themselves have conceptually diminished and devalued the authenticity of people with intellectual disability A concept of integrality becomes imaginable Conceptual analysis is framed using a crafting metaphor of a patchwork quilt which is infused with narrative and by which such an ethical exploration is undertaken and impaired traditional ethical theorising is confronted and transformed **Up Your Teaching Game** Janna Jackson

Kellinger,2024-12-23 Up Your Teaching Game offers K 12 teachers an intuitive and refreshingly fun pathway for creating immersive story based games that encourage students to experience the curriculum through play Regardless of their technical abilities design acumen grade level or domain today s teachers have fresh opportunities to create and implement their own content based games based on the same techniques that video game designers use to create commercial video games In five actionable steps this book prepares educators to design curricular games that teach instead of test that are derived from content rather than divergent from it and that motivate students to take ownership over their learning Programs that most teachers are familiar with such as PowerPoint and Google Slides and technologies that may be new to them such as Twine and Scratch are addressed alongside the use of their own classrooms and schools as game spaces Novice and veteran teachers alike as well as curriculum designers and school technologists will find a wealth of strategies and lessons learned tips for avoiding pitfalls and time constraints examples of quests and storyline advancement and much more
