Context and Culture in Language Teaching Claire Kramsch, 1993-06-17 This book takes cultural knowledge in language learning not only as a necessary aspect of communicative competence but as an educational objective in its own right If the aim of foreign language education is to foster cross cultural awareness and self realization language pedagogy needs to come to grips with a range of fundamental issues what do we mean by cultural context Can discourse practices be taught like rules of grammar What role does literature play in the development of second language literacy How can learners acquire both an insider's and an outsider's understanding of the foreign culture as expressed through its language By exploring these and other issues the book can help language teachers reflect on their profession and place it within its larger societal and educational context In turn they can help learners become not only skilful users of the language but also active architects of a new cross cultural world order

Language as Discourse Michael McCarthy, Ronald Carter, 2014-07-22 In this book Michael McCarthy and Ronald Carter describe the discursial properties of language and demonstrate what insights this approach can offer to the student and teacher of language The authors examine the relationship between complete texts both spoken and written and the social and cultural contexts in which they function They argue that the functions of language are often best understood in a discursial environment and that exploring language in context compels us to revise commonly held understandings about the forms and meanings of language In so doing the authors argue the need for language teachers syllabus planners and curriculum organisers to give greater attention to language as discourse

Context and Culture in Language Teaching and Learning Michael Byram, Peter Grundy, 2003 The chapters in this book all address the significance of the relationship between the aims and methods of language teaching and the contexts in which it takes place Some consider the implications for the ways in which we research language teaching others present the results of research and development work
