Framing the Threat Imke Köhler, 2019-03-04 There is great power in the use of words words create most of what we consider to be real and true Framing our words and narratives is thus a tool of power but a power that also comes with limitations This intriguing issue is the topic of Framing the Threat an investigation of the relationship between language and security and of how discourse creates the scope of possibility for political action In particular the book scrutinizes and compares the security narratives of the former US presidents George W Bush and Barack Obama It shows how their framings of identity i e of the American self and the enemy other facilitated a certain construction of threat that shaped the presidents detention and interrogation policies By defining what was necessary in the name of national security Bush s narrative justified the operation of the detention center at Guantanamo Bay and rendered the

mistreatment of detainees possible a situation that would have otherwise been illegal Bush's framings therefore enabled legal limits to be pushed and made the violation of rules appear legitimate Obama in contrast constructed a threat scenario that required an end to rule violations and the closure of Guantanamo for security reasons According to this narrative a return to the rule of law was imperative if the American people were to be kept safe However Obama's framing was continually challenged and it was never able to dominate public discourse Consequently Framing the Threat argues Obama was unable to implement the policy changes he had announced
