Handbook On Tourism Product Development:

Handbook on Tourism Product Development, 2011 Tourism products are the basis for a destination's tourism sector operation unless the tourism product meets the needs and expectations of tourists the destination cannot realise its full potential. However, only few destinations focus their attention on the development and delivery of the various attractions and activities that make up the tourism product. The UNWTO ETC Handbook on Tourism Product Development outlines the essential elements in the process of tourism product development planning and implementation e.g. coordination, consultation, collaboration, co-operation. It illustrates these principles through a range of successful approaches and case studies from around the world and sets out best practice examples and benchmarks by which destinations can assess their own product development system and methods.
