Di Leo, 2024-04-27 This book argues that a critical understanding of dark academe is vital to the futures of democracy and education Drawing upon contemporary literary and cultural theory particularly affect theory queer epistemology and critical race theory as well as critiques of capitalism and accounts of the death drive it builds a case for identifying dark academe as anything that prohibits the pursuit of democratic

education and critical citizenship It also argues that dark times require a reassessment of the ways theory and knowledge are approached in the humanities This is necessary if the aim is to truly understand the darkness at the heart of the higher education today Dark academe works to negate education and learning by continuously telling us that the quest for knowledge is empty and the pursuit of critique is blind In this educational darkness the death drive of neoliberal academe becomes a force that works against intellectual transformation and the deepening of critical sights International
