

A high-angle photograph of a person's hands typing on a silver laptop. The laptop is open on a rustic wooden table. To the left of the laptop is a white cup of black coffee on a saucer, with a glass of water next to it. To the right is a small potted plant with green leaves. A red folder or notebook is visible in the bottom left corner. The person is wearing a blue long-sleeved shirt. The background is slightly blurred, showing more of the wooden table and some greenery.

The Harvard Register Moses King, 1880 *Understanding the Blockchain Economy* Chris Berg, Sinclair Davidson, Jason Potts, 2019 Blockchains are the distributed ledger technology that powers Bitcoin and other cryptocurrencies. But blockchains can be used for more than the transfer of tokens; they are a significant new economic infrastructure. This book offers the first scholarly analysis of the economic nature of blockchains and the shape of the blockchain economy. By applying the institutional economics of Ronald Coase and Oliver Williamson, this book shows how blockchains are poised to reshape the nature of firms, governments, markets, and civil society. Practitioners' Journal, 1966 **Strategy Execution for Performance Excellence (UUM Press)** Haim Hilman Abdullah, Narentheren Kaliappen, 2017-01-01 Strategy Execution for Performance Excellence is a strategic book that is meant for two target groups. The first is for students studying management and business administration both at undergraduate and postgraduate levels where it is meant to be used as a capstone course after the students have been exposed to the various functioning areas of management. The second is for readers and practitioners who seek essential knowledge on strategic management. The book can help to understand the right strategy execution and confront the indeed main challenges you face in implementing strategies. This book focuses on execution, the business and functional level strategies needed to make strategy work and achieve performance excellence. If you are striving, you can use the great strategic message in this book to achieve excellent performance and shape your organization's future. Covering eight chapters, the book covers topics such as an introduction to strategy execution theory, based understanding performance excellence, competitive strategy, strategic flexibility, sourcing strategy, effective strategy execution model, and winning business success formula. We are explaining winning business success formula for the managers that we believe they can apply in their companies that aims to achieve performance excellence and competitive advantage in the current hyper-competitive business environment. The book presents contents in an accessible style accompanied by local and global examples and situations. Each chapter starts and ends with knowledge objective, strategic quotes, summary, and some review questions. JoC Week, *A Data Engineering Approach to Wave Scattering Analysis with Applications in Radar, Sonar, Medical Diagnostics, Structural Flaw Detection and Intelligent Robotics* Mark Hinders, 2025-01-02 Comprehensive resource exploring how recent advancements in computational capabilities open doors to new applications in wave scattering. A Data Engineering Approach to Wave Scattering Analysis applies scattering analysis to many applications including radar, sonar, medical diagnosis, intelligent robotics, and more, enabling readers to implement new and better measurements with both novel instrumentation and artificial intelligence that automates the interpretation of various and multiple imaging data streams. Composed of 10 chapters, this book brings together separate scientific topics that share a common basis of knowledge and their unchanged mathematical techniques to ensure successful results. Through periodic exercises, this book reinforces the importance of revisiting derivations and reproducing established results. It also delves into the individuals who shaped

scientific methods and technologies exploring 81 notable names and providing insights into their professional journeys Classic results from scattering are included in each chapter and rather than simply pasting in plots from classic papers these results have largely been reproduced for a more coherent reader experience Written by an established academic in the field A Data Engineering Approach to Wave Scattering Analysis includes information on various topics Field equations covering strain as a dimensionless measure of deformation generalized Hooke's Law and elastic and acoustic waves Reflection and refraction covering reflection from a free surface and surface waves as well as the wave model of acoustic microscopy Guided waves covering torsional modes longitudinal waves and flexural waves in rods as well as data engineering for lamb wave tomography Inverse scattering covering wavelet transforms and fingerprinting as well as applications of wavelet fingerprints such as roof fall detection A Data Engineering Approach to Wave Scattering is an essential up to date reference on the subject for researchers interested in radar sonar medical imaging structural health monitoring manufacturing process control and autonomous vehicles as well as upper level undergraduates and graduate students in related programs of study
