Dare We Speak of Hope? Allan Aubrey Boesak, 2014-02-21 The phrase hopeful politics has dominated our public discourse in connection with the inspiring rise of Nelson Mandela in South Africa and the remarkable election of Barack Obama as president of the United States But what happens when that hope disappoints Can it be salvaged What is the relationship between faith hope and politics In this book Allan Boesak meditates on what it really means to hope in light of present political realities and growing human pain He argues that hope comes to life only when we truly face reality in the struggle for justice dignity and the life of the earth *Dare We Speak of Hope* is a critical provocative prophetic and above all hopeful book

Education for the Common Good Iris M. Yob,Estelle R. Jorgensen,2020-03-17 Why teach music Who deserves a music education Can making and learning about music serve the common good A collection of essays considers the answers In Humane Music Education for the Common Good scholars and educators from around the world offer unique responses to the recent UNESCO report titled Rethinking Education Toward the Common Good This report suggests how through purpose policy and pedagogy education can and must respond to the challenges of our day in ways that respect and nurture all members of the human family The contributors use this report as a framework to explore the implications and complexities that it raises The book begins with analytical reflections on the report and then explores pedagogical case studies and practical models of music education that address social justice inclusion individual nurturance and active involvement in the greater public welfare The collection concludes by looking to the future asking what more should be considered and exploring how these ideals can be even more fully realized This volume boldly expands the boundaries of the UNESCO report to reveal new ways to think about be invested in and use music education as a center for social change both today and going forward Where the Evidence Leads Robert C. Johansen,2021-10-19 Where the Evidence Leads develops a new theory of empirical realism to enable the United States to respond more effectively to rising security threats than do present policies It shows that more US security benefits are likely to result from maximizing the causes or correlates of peace than from maximizing US military power the usual recommendation of US policymakers and political realists Ironically a global grand strategy for human security with US national security folded into it is likely to produce more security for the United States than a national security policy pursued as an end in itself Global human security policies can achieve sustainable peace in contexts where a national grand strategy for US security often fails **Designed to Heal** Jennie A. McLaurin,Cymbeline Tancongco Culiati,2021 A rare combination of vivid science compassionate storytelling and lasting spiritual lessons A delight

A Crisis of Civility? Robert G. Boatright, Timothy J. Shaffer, Sarah Sobieraj, Dannagal Goldthwaite Young, 2019-02-18 The state of political discourse in the United States today has been a subject of concern for many Americans Political incivility is not merely a problem for political elites political conversations between American citizens have also become more difficult and tense The 2016 presidential elections featured campaign rhetoric designed to inflame the general public Yet the 2016 election was certainly not the only cause of incivility among citizens There have been many instances in recent years where reasoned discourse in our universities and other public venues has been threatened This book was undertaken as a response to these problems It presents and develops a more robust discussion of what civility is why it matters what factors might contribute to it and what its consequences are for democratic life The authors included here pursue three major questions Is the state of American political discourse today really that bad compared to prior eras what lessons about civility can we draw from the 2016 election and how have changes in technology such as the development of online news and other means of mediated communication changed the nature of our discourse This book seeks to develop a coherent civil conversation between divergent contemporary perspectives in political science communications history sociology and philosophy This multidisciplinary approach helps to reflect on challenges to civil discourse define civility and identify its consequences for democratic life in a digital age In this accessible text an all star cast of contributors tills the earth in which future discussion on civility will be planted

A Pedagogy for Planetary Convivência Débora B. A. Junker, 2025-01-30 *A Pedagogy for a Planetary Convivencia* presents a comprehensive approach to education that aims to promote emotional resilience empathy and ethical consciousness The ultimate objective is to inspire us to imagine a more equitable world where indigenous people are respected and valued where cultural diversity is celebrated and where relationships between humans and the natural world are based on reciprocity and care Grounded on principles of critical pedagogy Freirean philosophy and liberation theology this book makes the case that advocating change without a sincere

commitment to social justice is a betrayal of the millions of people who still face dehumanization that criticism without love is pointless and that denunciation without compassion is damaging Therefore the book invites to embrace hope in order to strengthen our relationships to embrace love in order to inspire our creativity and to embrace courage in order to express gestures of tenderness **Make Way for the Superhumans** Michael Bess,2016-07-07 Biomedical research is changing the

both the format and the functions of human beings Very soon the human race will be faced with a choice do we join in with the enhancement or not Make Way for the Superhumans looks at how far this technology has come and what aims and ambitions it has From robotic implants that restore sight to the blind to performance enhancing drugs that build muscles improve concentration and maintain erections bio enhancement has already made massive advances Humans have already developed the technology to transmit thoughts and actions brain to brain using only a computer interface By the time our grandchildren are born they will be presented with the option to significantly alter and redesign their bodies Make Way for the Superhumans is the only book that poses the questions that need answering now suggesting real practical ways of dealing with this technology before it reaches a point where it can no longer be controlled Pharaohs on Both Sides of the

Blood-Red Waters Allan Aubrey Boesak,2017-07-12 After the civil rights and anti apartheid struggles are we truly living in post racial post apartheid societies where the word struggle is now out of place Do we now truly realize that as President Obama said the situation for the Palestinian people is intolerable This book argues that this is not so and asks What has Soweto to do with Ferguson New York with Cape Town Baltimore with Ramallah With South Africa the United States and Palestine as the most immediate points of reference it seeks to explore the global wave of renewed struggles and nonviolent revolutions led largely by young people and the challenges these pose to prophetic theology and the church It invites the reader to engage in a trans Atlantic conversation on freedom justice peace and dignity These struggles for justice reflect the proposal the book discusses there are pharaohs on both sides of the blood red waters Central to this conversation are the issues of faith and struggles for justice the call for reconciliation its possibilities and risks the challenges of and from youth leadership prophetic resistance and the resilient audacious hope without which no struggle has a future The book argues that these revolutions will only succeed if they are claimed embraced and driven by the people Transition to Common Work

Joe Mancini,Stephanie Mancini,2015-04-07 The Working Centre in the downtown core of Kitchener Ontario is a widely recognized and successful model for community development Begun from scratch in 1982 it is now a vast network of practical supports for the unemployed the underemployed the temporarily employed and the homeless populations that collectively constitute up to 30 percent of the labour market both locally and across North America Transition to Common Work is the essential text about The Working Centre its beginnings thirty years ago the lessons learned and the myriad ways in which its strategies and innovations can be adapted by those who share its goals The Working Centre focuses on creating access to tools projects rather than administrative layers of bureaucracy This book highlights the core philosophy behind the

centre's decentralized but integrated structure which has contributed to the creation of affordable services. Underlying this approach are common sense innovations such as thinking about virtues rather than values, developing community tools with a social enterprise approach and implementing a radically equal salary policy. For social workers, activists, bureaucrats and engaged citizens in third sector organizations, NGOs, charities, not-for-profits, co-operatives, this practical and inspiring book provides a method for moving beyond the doldrums of poverty relief into the exciting world of community building.

The Human Capacity for Transformational Change Valerie A. Brown, John A. Harris, 2014-02-24 Pressures for transformational change have become a regular feature of most fields of human endeavour. Master thinkers and visionaries alike have reframed existing divisions as connecting relationships, bringing together as dynamic systems the supposed opposites of parts and wholes, stability and change, individuals and society, and rational and creative thinking. This reframing of opposites as interconnected wholes has led to realisation of the power of a collective mind. This book offers ways and means of creating the synergies that are crucial in influencing a desired transformational change towards a just and sustainable future. It describes how and why our current decision making on any complex issue is marked by clashes between the different interests involved. More optimistically, the book pursues a mode of thinking that brings together government, specialised and community interests at the local, regional and personal scales in a collective transformation process. Practical examples signal the emergence of a new knowledge tradition that promises to be as powerful as the scientific enlightenment. Written in accessible language, this book will be insightful reading for anyone struggling with transformational change, especially researchers, students and professionals in the fields of administration, governance, environmental management, international development, politics, public health, public law, sociology and community development.

The Clue of the Red Thread Julie Tallard Johnson, 2021-01-26 In Greek mythology, Ariadne held authority over the mazes and labyrinths located beneath the palace of Knossos on Crete, including the labyrinth that housed the deadly Minotaur. When Theseus came to attempt to free the people from the Minotaur, Ariadne gave Theseus a ball of red thread to mark his passage in and out of the labyrinth. The thread was the key to successfully navigating the labyrinth's many twists and turns, and Theseus ultimately confronted the Minotaur. In her teaching, Julie Tallard Johnson notes that metaphorically we all spend our lives in a labyrinth, regularly having to face forked paths, contradictory twists and turns, and dead ends. Red thread is a rich analogy for the wisdom passed on to us from generations of spiritual teachers, and this wisdom guides us through our labyrinths. In *The Clue of the Red Thread*, Johnson, longtime student of author, teacher and activist Parker J. Palmer, offers numerous practices and strategies for navigating what she calls the greatest adventure of our lifetime: going inward to discover who we truly are, then returning outward to blossom into a fearless and compassionate citizen living with integrity while both keeping hold of the red thread in our own lives and moving forward to pass it on to others.
