Hermeneutics And The Human Sciences Essays On Language Action And Interpretation Cambridge Philosophy Classics:

Hermeneutics and the Human Sciences Paul Ricoeur, 1981-08-31 A collection in translation of essays by Paul Ricoeur
Hermeneutics and the Human Sciences Paul Ricoeur, 1990 Gadamer, Music, and Philosophical Hermeneutics Sam McAuliffe, 2023-11-28 This volume explores Hans Georg Gadamer's philosophical hermeneutics within a musical context. It features contributions from philosophers, musicians, educators, and musicologists from a variety of backgrounds and sheds light on both the hermeneutic nature of music and the musicality of hermeneutics. Contributors to this volume hermeneutically think with music to uncover its fundamentally hermeneutic character and by thinking with Gadamer in a musical context explore ways in which hermeneutics may be understood to possess an inherent musicality. Gadamer's thought is taken up in a variety of musical contexts including improvisation, musical performance, classical music, jazz, and music criticism. This first volume to explore Gadamer's hermeneutics in a musical context breaks new ground by challenging musical concepts and by pushing Gadamer's thought in new directions. It appeals to philosophers engaged with Gadamer's thought and philosophical hermeneutics more broadly, as well as philosophers of music, musicologists, and musicians interested in critically engaging with the practice of performing and listening to music.

The Logic of Intersubjectivity Darren M. Slade, 2020-08-27 To survey harsh criticisms against Brian Douglas McLaren, 1956 readers gain the inaccurate impression that he is a heretical relativist who denies objective truth and logic. While McLaren's inflammatory and provocative writing style is partly to blame, this study also suspects that his critics base much of their analyses on only small portions of his overall corpus. The result becomes a caricature of McLaren's actual philosophy of religion. What is argued in this book is that McLaren's philosophy of religion suggests a faith-based intersubjective relationship with the divine ought to result in an existential appropriation of Christ's religious ethical teachings. When subjectively internalized, this appropriation will lead to the assimilation of Jesus' kingdom priorities, thereby transforming the believer's identity into one that actualizes Jesus' kingdom ideals. The hope of this book is that by tracing McLaren's philosophy of Christian religion, future researchers will not only be able to comprehend and perhaps empathize with McLaren's line of reasoning but they will also possess a more nuanced discernment of where they agree and disagree with his overall rationale.

Dao Companion to ZHU Xi's Philosophy Kai-chiu Ng, Yong Huang, 2020-03-04 Zhu Xi (1130-1200) has been commonly and justifiably recognized as the most influential philosopher of Neo-Confucianism, a revival of classical Confucianism in face of the challenges coming from Daoism and more importantly Buddhism. His place in the Confucian tradition is often and also very plausibly compared to that of Thomas Aquinas slightly later in the Christian tradition. This book presents the most comprehensive and updated study of this great philosopher. It situates Zhu Xi's philosophy in the historical context of not only Confucian philosophy but also Chinese philosophy as a whole. Topics covered within Zhu Xi's thought are metaphysics, epistemology, ethics, political philosophy.

hermeneutics philosophy of religion moral psychology and moral education This text shows both how Zhu Xi responded to earlier thinkers and how his thoughts resonate in contemporary philosophy particularly in the analytic tradition This companion will appeal to students researchers and educators in the field *The Hermeneutics of Medicine and the Phenomenology of Health* Fredrik Svenaeus,2022-07-15 This is the first monograph to deal with medicine as a form of hermeneutics now in a thoroughly revised and updated edition including a whole new chapter on medical ethics The book offers a comprehensive philosophical argument why good medical practice cannot be curtailed to scientific investigations of the body but is a form of clinical hermeneutics performed by health care professionals in dialogue with their patients Medical hermeneutics is rooted in a phenomenology of illness which acknowledges and proceeds from the ill party s bodily feelings everyday life world circumstances and self understanding in aiming to restore health The author shows how the works of classical phenomenologists and hermeneuticians Martin Heidegger Maurice Merleau Ponty Hans Georg Gadamer and Paul Ricoeur may be employed to understand how medical diagnosis is enveloped by professional empathy and clinical judgement and developed by scientific investigations of the patient s bodily condition Health and illness are ultimately considered to be ways of feeling at home or not at home in the world and such experiences are the starting point of medical hermeneutics when aiming to make best use of scientific knowledge The book is aimed at researchers and teachers in philosophy of medicine and medical ethics and at physicians nurses and other health care professionals meeting with patients in ethically complex and challenging situations Phenomenology and hermeneutics most often considered as methods belonging to the humanities are shown to be of vital importance for the understanding of medical practice and ethical dilemmas of health care

Philosophical Hermeneutics Reinterpreted Paul Fairfield,2011-08-11 Examines hermeneutics in relation to existentialism pragmatism critical theory and postructuralism D.H. Lawrence: The Thinker as Poet F. Becket,2015-12-17 D H Lawrence The Thinker as Poet addresses a particular body of language and thought within Lawrence s oeuvre where the metaphorical the poetic and the philosophical are intricately enmeshed Lawrence emerges as a writer who pulls metaphor away from its merely rhetorical moorings his distinctive style is the hallmark of one who thinks not analytically but poetically about the birth of the self the body unconscious complex kinds of otherness and about metaphor itself as a mode of understanding

Classics and Interpretations Ching-I Tu,2017-11-30 In recent years in the West scholars have attempted to unravel old constructs of interpretation and understanding using the discipline of hermeneutics or the scientific study of textual interpretation Borrowed from students of the ever growing body of biblical interpretive literature that originated in the early Christian era theoretical hermeneutics has given many contemporary scholars potent tools of textual interpretation Classics and Interpretations applies this method to Chinese culture Several essays focus on hermeneutic traditions of Neo Confucianism Others move outside of these traditions to attempt an understanding of the role of hermeneutics in Taoist and Buddhist textual interpretation in Chinese poetics and painting and in contemporary Chinese culture This volume makes a

concerted effort to remedy our ignorance of the Chinese hermeneutical tradition

Part 1 The Great Learning and Hermeneutics demonstrates the use of commentary to define how the individual creates his social self and discusses differing interpretations of the Ta hsueh text and its treatment as either canonical or heterodox

Part 2 Canonicity and Orthodoxy considers the philosophical touchstones employed by Neo Confucian canonical exegetes and polemicists and discusses the Han canonization of the scriptural Five Classics while illuminating a double standard that existed in the hermeneutical regime of late imperial China

Part 3 Hermeneutics as Politics discusses the transformation of both the classics and scholars and explores the dominant hermeneutic tradition in Chinese historiography the scriptural tradition and reinterpretation of the Ch un ch iu and reveals the pragmatism of Chinese hermeneutics through comparison of the Sung debates over the Mencius

The concluding sections include essays on Chu Hsi and Interpretation of Chinese Classics Hermeneutic Traditions in Chinese Poetics and Non Confucian Contexts Reinterpretation of Confucian Texts in the Ming Ch ing Period and Contemporary Interpretations of Confucian Culture

Through these literate and brilliantly written essays the reader witnesses not merely the great breadth and depth of Chinese hermeneutics but also its continuity and evolutionary vigor

This volume will excite scholars of the Confucian Buddhist and Taoist systems of thought and belief as well as students of history and hermeneutics

Interpretation and Social Knowledge Isaac Ariail Reed, 2024-05-31

For the past fifty years anxiety over naturalism has driven debates in social theory

One side sees social science as another kind of natural science while the other rejects the possibility of objective and explanatory knowledge

Interpretation and Social Knowledge suggests a different route offering a way forward for an antinaturalist sociology that overcomes the opposition between interpretation and explanation and uses theory to build concrete historically specific causal explanations of social phenomena

The Holy Spirit and the Reformation Legacy Mark J. Cartledge, Mark A. Jumper, 2020-09-16

This collection of essays explores the legacy of the Reformation with regard to the person and work of the Holy Spirit

Following the five hundredth anniversary of Luther's posting of his ninety five theses these essays consider this legacy with particular reference to the work of Martin Luther and John Calvin as well as broader Reformation themes as they are related to pneumatology and the life of the church today

The contribution of this collection is to tease out and reflect on pneumatology historically but also to relate these findings to contemporary discussions especially among scholars of pentecostal and charismatic Christianity

Together these essays invite readers to appreciate the contribution that the Protestant Reformation makes to life in the Holy Spirit today as well as offering critical and constructive reflection on this theme

It is a timely and significant contribution to the discussions of the person and work of the Holy Spirit and the church

Interdisciplinary Interpretation Kenneth A. Reynhout, 2013-06-20

The past fifty years has seen the emergence of an energetic dialogue between religion and the natural sciences that has contributed to a growing desire for interdisciplinarity among many constructive theologians

However some have also resisted this trend in part because it seems that the price one must pay for such engagement is much too high

Interdisciplinary work

appears overly abstract and methodologically restrictive with little room for systematic theologians self consciously operating within a particular historical tradition In *Interdisciplinary Interpretation* Paul Ricoeur and the Hermeneutics of Theology and Science Kenneth A Reynhout seeks to address this concern by constructing an alternative understanding of interdisciplinary theology based on the hermeneutical thought of Paul Ricoeur generally recognized as one of the most interdisciplinary philosophers of the twentieth century Appealing to Ricoeur s view of interpretation as the dialectical process of understanding through explanation Reynhout argues that theology s engagement with the natural sciences is fundamentally hermeneutical in character As such interdisciplinary theologians can faithfully borrow meaning from the sciences through a process of interdisciplinary interpretation a process that can honestly attend to the legitimate challenges posed by the natural sciences without automatically requiring the evacuation of theological norms and convictions Reynhout s creative appropriation of Ricoeur s hermeneutics succeeds in providing a novel interdisciplinary vision not only for theology but also for interdisciplinary work in general

Interpretative Archaeology Christopher Tilley, 2020-05-26 This fascinating volume integrates recent developments in anthropological and sociological theory with a series of detailed studies of prehistoric material culture The authors explore the manner in which semiotic hermeneutic Marxist and post structuralist approaches radically alter our understanding of the past and provide a series of innovative studies of key areas of interest to archaeologists and anthropologists

Philosophical Meta-Reflections on Literary Studies Jibu Mathew George, 2019-11-29 *Philosophical Meta Reflections on Literary Studies* takes up key meta questions in the humanities with focus on contemporary literary studies philosophically examines the nature of knowledge therein as well as the implications of certain popular critical approaches and addresses the effervescent question of relevance In contrast to usual works on literary theory or on philosophy of literature for that matter this book presents an integrated meta reasoning on the foundational questions of literary studies from an interdisciplinary perspective in a manner of intertextual informality It endeavours to articulate a rationale for the humanities in general and literary studies in particular It philosophically examines the implications of and assumptions behind three popular tendencies in contemporary literary criticism textual deconstruction ideological criticism and constructivism It also introduces the reader to possibilities of non reductive reasoning with regard to the relation between the aesthetic and the political With his multidisciplinary background doctoral degree on an encyclopedic author James Joyce and past engagements with vital issues in the humanities literature Jibu George is in a position to deal with foundational questions therein

The Postmodern Bible George Aichele, Fred W. Burnett, Robert M. Fowler, David Job ling, Tina Pippin, Wilhelm Wuellner, Bible and Culture Collective, 1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship

today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies

Disobedience Elena Loizidou, 2013-10-30 Disobedience has been practiced and considered since time immemorial The aim of this edited collection is to explore the concept and practice of disobedience through the prism of contemporary ideas and events Past writings on disobedience represented it as a largely political practice that revealed the limits of government or law It was not for example thought of as a subjective exigency and its discussion in relation to law and politics was tied to an unduly narrow conception of these terms Disobedience Concept and Practice reveals the multivalent multidisciplinary and poly local nature of disobedience The essays in this volume demonstrate how disobedience operates in various terrains and may be articulated in relation to textuality aesthetics and subjectivity as well as politics and law A rich and useful guide to current legal political and social possibilities this book provides a fresh perspective on a subject that is of both historical importance and contemporary relevance

Visions of Religion Stephen S. Bush, 2014 Winner of the Gustave O Arlt Award in the Humanities Three understandings of the nature of religion religion as experience symbolic meaning and power have dominated scholarly discussions in succession for the past hundred years Proponents of each of these three approaches have tended to downplay ignore or actively criticize the others But why should the three approaches be at odds Religion as it is practiced involves experiences meanings and power so students of religion should attend to all three Furthermore theorists of religion should have an account that carefully conceptualizes all three aspects without regarding any of them as more basic than the others Visions of Religion provides just such an account Stephen S Bush examines influential proponents of the three visions arguing that each approach offers substantial and lasting contributions to the study of religion although each requires revision Bush rehabilitates the concepts of experience and meaning two categories that are much maligned these days In doing so he shows the extent to which these categories are implicated in matters of social power As for power the book argues that the analysis of power requires attention to meaning and experience Visions of Religion accomplishes all this by articulating a social practical theory of religion that can account for all three aspects even as it incorporates them into a single theoretical framework

Preaching Must Die! Jacob D. Myers, 2017-10-18 The real

question for homiletics in our increasingly postmodern post Christian contexts is not how we are going to prevent preaching from dying but how we are going to help it die a good death Preaching was not made to live At most preaching is a witness a sign a crimson X marking a demolition site The church has developed sophisticated technologies in modernity to give preaching the semblance of life belying the truth preaching was born under a death sentence It was born to die Only when preaching embraces its own death is it able to live This book then is a bold homiletical manifesto against preaching in support of preaching and beyond preaching to the entire worship experience It troubles modern homiletical theologies in light of the trouble always already at work within preaching Hereby it supports a way of preaching and teaching preaching that moves counter to the wisdom of this world It aims to joins in God s self revealed counterlogic of superabundance that saturates and thereby breaks open worldly systems of thought and practice The purpose of this book is to expose preaching to its own death to help it embrace its death so that it can discover what eternal and abundant life might look and feels like

Interpreting Technology Wessel Reijers,Alberto Romele,Mark Coeckelbergh,2021-05-21 Paul Ric ur has been one of the most influential and intellectually challenging philosophers of the last century and his work has contributed to a vast array of fields studies of language of history of ethics and politics However he has up until recently only had a minor impact on the philosophy of technology Interpreting Technology aims to put Ric ur s work at the centre of contemporary philosophical thinking concerning technology It investigates his project of critical hermeneutics for rethinking established theories of technology the growing ethical and political impacts of technologies on the modern lifeworld and ways of analysing global sociotechnical systems such as the Internet Ric ur s philosophy allows us to approach questions such as how could narrative theory enhance our understanding of technological mediation How can our technical practices be informed by the ethical aim of living the good life with and for others in just institutions And how does the emerging global media landscape shape our sense of self and our understanding of history These questions are more timely than ever considering the enormous impact technologies have on daily life in the 21st century on how we shape ourselves with health apps how we engage with one another through social media and how we act politically through digital platforms *Critique, Norm, and Utopia* Seyla Benhabib,1986 Displaying an impressive command of complex materials Seyla Benhabib reconstructs the history of theories from a systematic point of view and examines the origins and transformations of the concept of critique from the works of Hegel to Habermas Through investigating the model of the philosophy of the subject she pursues the question of how Hegel s critiques might be useful for reformulating the foundations of critical social theory
