The Rise of Games and High Performance Computing for Modeling and Simulation will serve as a useful tutorial and reference document for this particular era in the evolution of MSG. Fiction, Invention and Hyper-reality Carole M. Cusack, Pavol Kosnáč, 2016-11-18 The twentieth century was a period of rapid change for religion. Secularisation resulted in a dramatic fall in church attendance in the West, and the 1950s and 1960s saw the introduction of new religions, including the International Society for Krishna Consciousness (ISKCON), the Church of Scientology, and the Children of God. New religions were regarded with suspicion by society in general and Religious Studies scholars alike until the 1990s, when the emergence of a second generation of new religions based on popular cultural forms, including films, novels, computer games, and comic books, and highly individualistic spiritualities, confirmed the utter transformation of the religious spiritual landscape. Indeed, Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de

institutionalised eclectic parodic fun loving and experimental fiction based invented and hyper real religions In this book scholarly treatments of cutting edge religious and spiritual trends are brought into conversation with contributions by representatives of Dudeism the Church of All Worlds the Temple of the Jedi Order and Tolkien spirituality groups This book will simultaneously entertain shock challenge and delight scholars of religious studies as well as those with a wider interest in new religious movements

The Silver Elves have put them all in this one book for all those who need a convenient yet thorough and easy to read resource to explore their questions about who the modern elves are and about the Elven Way or elven spiritual path past, present, and future.
