Gun Control And The Subversion Of The Second Amendment How Gun Control Activists Distort The Truth In Their Effort To Negate The Second Amendment:

Gun Control on Trial Brian Doherty, 2008-11-01 In June 2008 the Supreme Court had its first opportunity in seven decades to decide a question at the heart of one of America's most impassioned debates: Do Americans have a right to possess guns? *Gun Control on Trial* tells the full story of the Court's decision in *District of Columbia v. Heller* which ended the District's gun ban. With exclusive behind-the-scenes access throughout the process, author Brian Doherty is uniquely positioned to delve into the issues of this monumental case and provides compelling looks at the inside stories including the plaintiffs' fight for the right to protect their lives, the activist lawyers who worked to affirm that right, and the forces who fought to stop the case.

The Second Amendment and Gun Control Laws as a Subject of Debate Lisa Schreinemacher, 2019-08-26 Seminar paper from the year 2019 in the subject American Studies Culture and Applied Geography grade 1.7 University of Bonn language English abstract This study is concerned with the historical development of the Second Amendment and how it is interpreted today. In doing so, John Vile's *A Companion to the United States Constitution and its Amendments* and Adam Winkler's *Gun Fight* have been consulted to provide background information on the history of the Second Amendment. Due to the fact that this term paper also deals with current statistics on gun control laws, it also relied on online research and online publications. Firstly, there will be a chapter that deals with the original intent of the founding fathers who framed the Second Amendment to the United States Constitution. It will provide an historical overview of the creation of the Second Amendment and what led to its inclusion into the Bill of Rights. It further tries to explain the founder's interpretation of the Second Amendment with regards to the militia. The third chapter will focus on the question of how the National Rifle Association was able to rewrite the Second Amendment in order to gain more profit and get support for gun rights. The chapter will present the approach taken by the NRA that resulted in a new interpretation of the Second Amendment and established the perception of an individual right to possess firearms within American society. It will take into account the Supreme Court cases of *United States v. Miller* of 1939 and *District of Columbia v. Heller* of 2008 that ultimately guaranteed an individual's right to own firearms without any connection to a militia. Another chapter will focus on gun control laws and provide a comparison between the United States and other developed countries. Furthermore, this chapter will give an insight into the perception of the Second Amendment within American society and discusses current gun control policies. Finally, the last paragraph of this term paper will be a conclusion which sums up the results achieved and gives an outlook for future research on the Second Amendment and gun control laws.
