 Caplan,2013-08-06 An increasing number of psychologists who were trained in clinical psychology health psychology or
 another specialty are gravitating toward rehabilitation psychology but many of them have little or no experience with
 rehabilitation populations With the explosion of interest in traumatic brain injury TBI many neuropsychologists are taking
 jobs in rehabilitation settings that treat people with TBI but also care for persons with the array of other disabling conditions
 such as spinal cord injury stroke MS and amputation In Specialty Competencies in Rehabilitation Psychology Drs Cox Cox
 and Caplan provide a guide to the knowledge and skills required by competent rehabilitation psychologists with an emphasis
 on the evidence base of the specialty The volume will be valuable to those preparing for the Board Certification Examination
 in Rehabilitation Psychology and will also be valuable to newcomers to the field and to clinicians working on an outpatient
 basis with individuals with a wide variety of chronic conditions Series in Specialty Competencies in Professional Psychology
 Series Editors Arthur M Nezu and Christine Maguth Nezu As the field of psychology continues to grow and new specialty
 areas emerge and achieve recognition it has become increasingly important to define the standards of professional specialty
 practice Developed and conceived in response to this need for practical guidelines this series presents methods strategies
 and techniques for conducting day to day practice in any given psychology specialty The topical volumes address best
 practices across the functional and foundational competencies that characterize the various psychology specialties including
 clinical psychology cognitive and behavioral psychology school psychology geropsychology forensic psychology clinical
 neuropsychology couples and family psychology and more Functional competencies include common practice activities like
 assessment and intervention while foundational competencies represent core knowledge areas such as ethical and legal
 issues cultural diversity and professional identification In addition to describing these competencies each volume provides a
 definition description and development timeline of a particular specialty including its essential and characteristic pattern of
 activities as well as its distinctive and unique features Written by recognized experts in their respective fields volumes are
 comprehensive up to date and accessible These volumes offer invaluable guidance to not only practicing mental health
 professionals but those training for specialty practice as well *The Oxford Handbook of Counseling Psychology* Elizabeth
