Intercultural Communication and Public Policy Iheanacho, Ngozi, 2016-07-25 As there are different races and people in the world so there are different cultures meaning that cultural diversity is inevitable Through human contact and association cultures meet In such meetings every individual and culture projects itself as worthy and should be held in high esteem In

today's world it is not encouraging to be ethnocentric always taking action or in actions that crystallize and project a feeling of one's own culture or racial superiority. Such attitude obstructs meaningful interaction, human relations, tolerance and co-operation. Conversely, the skill and ability to tolerate and communicate effectively with people from diverse cultures is a social activity which begins from thought to behaviour in both spoken and non-spoken versions. The book contains 19 essays structured into five parts.

Participatory Ideology Peter Beresford, 2021-03-15. The COVID-19 pandemic, Black Lives Matter movement and renewed action against climate change all highlight the increasing gulf between narrowly based dominant political ideologies and popular demands for social justice, global health, environmentalism and human rights. This book examines for the first time the exclusionary nature of prevailing political ideologies. Bringing together theory, practice and the relationship between participation, political ideology and social welfare, it offers a detailed critique of how the crucial move to more participatory approaches may be achieved. It is concerned with valuing people's knowledge and experience in relation to ideology, exploring its conventional social construction, including counter ideology and the ideological underpinnings and relations of participation. It also offers a practical guide for change.
