Hegemonic Masculinity Rethinking The Concept:

The Late Byzantine Romance in Context Ioannis Smarnakis, Zissis D. Ainalis, 2024-04-23 This book investigates issues of identity and narrativity in late Byzantine romances in a Mediterranean context covering the chronological span from the capture of Constantinople by the Crusaders in 1204 to the 16th century It includes chapters not only on romances that were written and read in the broader Byzantine world but also on literary texts from regions around the Mediterranean Sea The volume offers new insights and covers a variety of interrelated subjects concerning the narrative representations of self identities gender and communities the perception of political and cultural otherness and the interaction of space and time with identity formation The chapters focus on texts from the Byzantine western European and Ottoman worlds thus promoting a cross cultural approach that highlights the role of the Mediterranean as a shared environment that facilitated communications cultural interaction and the trading and reconfiguration of identities The volume will appeal to a wide audience of researchers and students alike specializing in or simply interested in cultural studies Byzantine western medieval and Ottoman history and literature **Extreme Britain** Elizabeth Pearson, 2023-12-11 Misogyny and toxic masculinity are increasingly implicated in radicalisation From the men s incel involuntary celibate movement online to jihadist groups like Islamic State to radical right Free Speech protests radicalisation spans ideologies Though an often used term the process of radicalisation is not well understood and the role of gender and masculinities has often been ignored. This book uses primary research among two of Britain's key extremist movements the banned Islamist group al Muhajiroun and those networked to it and the anti Islam radical right including the English Defence League and Britain First to reveal radicalisation as a masculinity project Through interviews with leaders including Anjem Choudary Jayda Fransen and Tommy Robinson as well as their followers Extreme Britain explores the emergence of extreme misogyny and masculinities Pearson situates extreme identities in wider social norms showing how masculinities are mobilised into action The book cautions against oversimplifying extreme masculinity as toxic It demonstrates how both men and women do extreme masculinities and the costs and benefits to them both of activism Understanding the men and women involved in extreme movements will better equip us to counter them This fascinating study offers invaluable insight into some of their lives and motivations Gender and International Security Laura Sjoberg, 2009-10-16 This book defines the relationship between gender and international security analyzing and critiquing international security theory and practice from a gendered perspective Gender issues have an important place in the international security landscape but have been neglected both in the theory and practice of international security The passage and implementation of UN Security Council Resolution 1325 on Security Council operations the integration of gender concerns into peacekeeping the management of refugees post conflict disarmament and reintegration and protection for non combatants in times of war shows the increasing importance of gender sensitivity for actors on all fronts in global security This book aims to improve the quality and quantity of conversations between feminist

security studies and security studies more generally in order to demonstrate the importance of gender analysis to the study of international security and to expand the feminist research program in Security Studies The chapters included in this book not only challenge the assumed irrelevance of gender they argue that gender is not a subsection of security studies to be compartmentalized or briefly considered as a side issue Rather the contributors argue that gender is conceptually empirically and normatively essential to studying international security They do so by critiquing and reconstructing key concepts of and theories in international security by looking for the increasingly complex roles women play as security actors and by looking at various contemporary security issues through gendered lenses Together these chapters make the case that accurate rigorous and ethical scholarship of international security cannot be produced without taking account of women s presence in or the gendering of world politics. This book will be of interest to all students of critical security studies gender studies and International Relations in general Laura Sjoberg is Assistant Professor of Political Science at the University of Florida She has a Phd in International Relations and Gender Studies from the University of Southern California and is the author of Gender Justice and the Wars in Iraq 2006 and with Caron Gentry Mothers Monsters Whores Women s Violence in Global Politics 2007 Masculinity in Contemporary Science Fiction Cinema Marianne Kac-Vergne, 2017-12-14 If science fiction stages the battle between humans and non humans whether alien or machine who is elected to fight for us In the classics of science fiction cinema humanity is nearly always represented by a male and until recently a white male Spanning landmark American films from Blade Runner to Avatar this major new study offers the first ever analysis of masculinity in science fiction cinema It uncovers the evolution of masculine heroes from the 1980s until the present day and the roles played by their feminine counterparts Considering gender alongside racial and class politics Masculinity in Contemporary Science Fiction Cinema also situates filmic examples within the broader culture It is indispensable for understanding science fiction Protestant Clergy Sexual Misconduct and Intercultural Pastoral Care AHyun and its role in contemporary cultural politics Lee, 2025-08-04 This volume examines the often overlooked crisis of sexual misconduct within Korean Protestant churches exploring how militarized culture hierarchical power and institutional silence contribute to the abuse of congregants especially those in vulnerable situations Through a blend of sociocultural theological and psychological analysis the book goes beyond individual acts of transgression to reveal the systemic forces that perpetuate clergy sexual misconduct By investigating the historical cultural and spiritual dimensions of abuse the book offers a framework for reframing survivor centered care and rethinking pastoral theology It concludes with a call for transformative change in religious practice urging greater transparency and more compassionate faith communities Essential reading for scholars students and practitioners this book provides critical insights into addressing sexual abuse within church settings and fostering ethical ministry His Good Name Christina Geisen, Jean Li, Steven B. Shubert, Kei Yamamoto, 2021-03-20 The wish to affiliate with a specific cultural social or ethnical group is as important today as it was in past societies such as that of the ancient Egyptians The

same significance applies to the self presentation of an individual within such a group Although it is inevitable that we perceive ancient cultures through the lens of our time place and value systems we can certainly try to look beyond these limitations Questions of how the ancient Egyptians saw themselves and how individuals tried to establish and thus present themselves in society are central pieces of the puzzle of how we interpret this ancient culture This volume focuses on the topic of identity and self presentation tackling the subject from many different angles the ways in which social and personal identities are constructed and maintained the manipulations of culture by individuals to reflect real or aspirational identities and the methods modern scholars use to attempt to say something about ancient persons Building on the work of Ronald J Leprohon to whom this volume is dedicated contributions in this volume present an overview of our current state of understanding of patterns of identity and self presentation in ancient Egypt The contributions approach various aspects of identity and self presentation through studies of gender literature material culture mythology names and officialdom

Schooled Bodies? Majella McSharry,2009 This book explores how adolescents in contemporary western culture are schooled on issues of embodiment Despite an apparently growing lay consensus that adolescence is the time when concerns relating to the body are especially concentrated and complex sociological literature rarely makes any connection between the sociology of the body and the sociology of adolescence With its in depth conversations with adolescents themselves and its exploration of theoretical and empirical discourses the book bridges this gap Schooled Bodies is unique in offering a methodologically detailed account of the complexities encountered by the adolescents in their pursuit of a sense of embodied validation The in depth study allows readers to journey into the worlds of teenagers from varied backgrounds as they reveal embodied narratives that shift frequently between happiness and heartache Working with these adolescents and their everyday encounters with theoretical perceptions means that the bodies in this book are not mere canvases that have sociological understandings done to them Instead the participants are agents who themselves actively negotiate investigate and instigate sociological understandings
