History And Culture Of Pakistan Nigel Kelly:

CURRICULUM REFORM IN PAKISTAN Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system. The book examines the questions: Why and how has a small elite class come to rule Pakistan? And how has their rule worsened the country's problems? The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society. The book represents the fusion of my experiences in Pakistan with extensive literature analysis, interviews, and textbook analysis. This research began when I came to the United States in January 2015 through the SAR program. I wanted to know the answers to profoundly unsettling questions: How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing? I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed. Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky-high inflation. The influential religious leaders mostly belong to the elite class while their followers are mostly lower class. Ruling families and social classes mostly control appointed positions. Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam? Why don't they work to end the disparity of quality education between classes in Pakistan? Instead, many elites run their own lucrative elite Islamic schools. More importantly, why do the ulama, which literally means those who possess knowledge, particularly of Islam, maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions? Why are the ulama silent in the face of ruthless murder and discrimination against Pakistani minorities? Book Review: *Pakistan Educational Reforms* is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions, intolerance, and conflicts. Dr. Amna Afreen documents the political, socio-economic, and religious causes, limited government funding, widespread poverty and illiteracy, and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools. Madrasa and offers a series of potential solutions and reforms. John L. Esposito, University Professor and Founding Director of The Alwaleed Center for Muslim-Christian Understanding, Georgetown University. *The History and Culture of Pakistan* Nigel Kelly, **Routledge Handbook of Contemporary Pakistan** Aparna Pande, 2017-08-23 With a population of 190 million, Pakistan is strategically located at the crossroads of the Middle East, Central, and South Asia and has the second largest Muslim population in the world. Pakistan Under Siege Madiha Afzal, 2018-01-02 Over the last fifteen years Pakistan has come to be defined exclusively in terms of its struggle with terror But are ordinary Pakistanis extremists And what explains how Pakistanis think Much of the current work on extremism in Pakistan tends to study extremist trends in the country from a detached position a top down security perspective that renders a one dimensional picture of what is at its heart a complex richly textured country of 200 million people In this book using rigorous analysis of survey data in depth interviews in schools and universities in Pakistan historical narrative reporting and her own intuitive understanding of the country Madiha Afzal gives the full picture of Pakistan s relationship with extremism The author lays out Pakistanis own views on terrorist groups on jihad on religious minorities and non Muslims on America and on their place in the world The views are not radical at first glance but are riddled with conspiracy theories Afzal explains how the two pillars that define the Pakistani state Islam and a paranoia about India have led to a regressive form of Islamization in Pakistan s narratives laws and curricula These in turn have shaped its citizens attitudes Afzal traces this outlook to Pakistan s unique and tortured birth She examines the rhetoric and the strategic actions of three actors in Pakistani politics the military the civilian governments and the Islamist parties and their relationships with militant groups She shows how regressive Pakistani laws instituted in the 1980s worsened citizen attitudes and led to vigilante and mob violence The author also explains that the educational regime has become a vital element in shaping citizens thinking How many years one attends school whether the school is public private or a madrassa and what curricula is followed all affect Pakistanis attitudes about terrorism and the rest of the world In the end Afzal suggests how this beleaguered nation one with seemingly insurmountable problems in governance and education can change course
