The Influence of Financial Relations on Sustaining Rural Livelihood in Sudan Gihan Adam Abdalla, 2013 This book started with a vision to portray Sudanese rural livelihood and question whether microfinance is able to sustain rural living The village of Al Dagag in the North Kordofan state of Sudan was chosen to be the research case study However further questions arose due to using the inductive methodology of Grounded Theory Throughout the entire research process different categories emerged from the data which conceptualize the perspective of the rural people on livelihood

Improving irrigation project planning and implementation processes in Sub-Saharan Africa: Diagnosis and recommendations ,2006-01-23 Weaknesses in planning and implementation P I have been identified as one of the main reasons for the disappointing results of agricultural water development and management projects Based on a review and critical analysis of experiences and case studies in sub Saharan Africa this studycomponent proposes practical ways of improving performance related to planning and implementation and thereby enhancing the returns to investments in agricultural water **Annual Report** International Fund for Agricultural Development,2007 **Foreign Assistance and Related Agencies Appropriations** United States. Small-scale Flood Control, Drainage and Irrigation Project ,1982 **Integral Human Development** Jacquineau Azétsop,2019-12-09 Pope Paul VI s notion of integral human development which was endorsed by his successors including Pope Francis broke with the modern project of purely economic and technological development resulting in an original understanding of development Like a conventional notion of development this theoretical construct favors economic growth technological innovation and the implementation of social programs However development is not just a socioeconomic and political issue let alone a technical one it raises fundamentally theological questions and points to important ethical

challenges Hence integral human development is a vocation at which all personal social and political activity must be directed As such it is not a social but an anthropological program Far from being a secular development theory the notion of integral human development emphasizes the religious goal of reconciling humanity and God through the creation of a human family over and above material social and economic issues Sustained by global principle and shaped by different cultural views this book brings forth the uniqueness of this approach to development examines its contribution to human welfare and anticipates the resistances it may face

Joint evaluation of collaboration among the United Nations Rome-Based Agencies Food and Agriculture Organization of the United Nations, International Fund for Agricultural Development, World Food Programme, 2021-11-15

The UN Rome based agencies RBAs FAO IFAD and WFP collaborate in many forms from joint advocacy policy and technical work to joint projects This is the first independent evaluation of collaboration among the RBAs It has been jointly undertaken by the evaluation offices of FAO IFAD and WFP The evaluation's primary objective was to assess whether and to what extent RBA collaboration is contributing to the achievement of the 2030 agenda particularly at country level The evaluation found that collaboration among the RBAs is a daily reality reflecting the shared strengths and commitment of these distinctly different organizations Although competition for resources continues in some contexts there is widespread recognition of complementarity In some cases the current collaborative management processes are not the best way to stimulate joint work with some types of collaboration imposing higher transaction costs The operating context for the RBAs is dynamic with significant potential and where realism and pragmatism are key to meaningful and effective collaboration Presently efforts to promote RBA collaboration are not fully grounded in an accurate understanding of the conditions in which it is most effectively pursued and the formal statements of corporate commitment to collaboration reflect this The report makes six recommendations of which five are addressed to management of the three agencies and one of which targets the member states Recommendation 1 Update the MOU among the RBAs Although the current five year MOU was only signed three years ago significant changes since then make an update necessary Recommendation 2 Restructure and reinforce the coordination architecture for RBAC within the framework of UNDS reform to ensure that at all levels the coordination and evaluation of RBAC includes more proactive efforts to develop and disseminate lessons and knowledge about how to optimize collaboration among and beyond the RBAs about the costs and benefits of RBAC and about technical experience that can be usefully shared Recommendation 3 Further embrace the new joint programming mechanisms at the country level and ensure constructive collaborative RBA engagement with these mechanisms Recommendation 4 Focus administrative collaboration efforts on further embracing the United Nations efficiency agenda Recommendation 5 In considering the development of joint projects and programmes assess the costs and benefits of the proposed collaboration and only proceed if the benefits

outweigh the costs Recommendation 6 The Member States of the RBA Governing Bodies should reappraise and adequately resource their position on RBA collaboration Social analysis for inclusive agrifood investments Christensen, I., Romano, M., 2023-12-12 More than a decade has passed since the publication of the series entitled Social Analysis of Agriculture and Rural Investment Projects which comprises three complementary manuals the Manager s Practitioner s and Field guides During this time conflict climate change and economic downturns have been driving up poverty hunger and socioeconomic inequalities reducing the resilience of agrifood systems In response the FAO Investment Centre has updated the Social Analysis guides to address the evolving and volatile rural transformation context providing programme managers practitioners and field workers with a set of enhanced tools for the design implementation and evaluation of inclusive investments in agrifood systems Today s investments must prioritize more demand driven people centred culturally sensitive and locally owned sustainable approaches with increased attention to reducing gender and other inequalities Operationalizing these principles contributes to FAO s and financing agencies objectives of ending poverty improving food security and nutrition and reducing inequalities The goal of the updated guides is to support investments that contribute to inclusive resilient and sustainable agrifood systems aligned with the outcomes of the UN Food Systems Summit the Sustainable Development Goals SDGs and the core principle of leaving no one behind This publication is part of the Investment Toolkits series under the FAO Investment Centre s Knowledge for Investment K4I series The contents of this publication have been turned into three e learning courses which are accessible for free through the FAO E learning Academy
