Seri Singapore Eye Research Institute:

SERI Arthur Siew Ming Lim, 2008 Just 10 years ago ophthalmic research was almost unheard of in Singapore. With little money and no infrastructure, ophthalmologists and scientists expressed scant interest in research. Today, however, ophthalmic research in Singapore is at a high international level, as exemplified by the activities of the Singapore Eye Research Institute (SERI), which is capable of competing with and challenging the world's leading eye research centers. Indeed, the world-class research carried out at SERI has helped to extend Singapore's international reach as the country moves towards its goal of becoming a global city and a leading nation influencing developments across Asia and the world. This book summarizes a decade of hard work, dedication, and commitment by a handful of doctors and researchers in their efforts to establish SERI and ensure its success. In particular, the remarkable contributions of two of Singapore's ophthalmic pioneers, the late Associate Professor Chew Sek Jin and current Professor Donald Tan, are acknowledged. The book will inspire leaders of developing nations in visualizing how research can develop rapidly in their own country and how support and facilities may materialize if they can gather a few dedicated, intelligent researchers. Seri: Singapore's World-class Research - Singapore Eye Research Institute

Arthur S. M. Lim, 2008-06-04 Just 10 years ago ophthalmic research was almost unheard of in Singapore. With little money and no infrastructure, ophthalmologists and scientists expressed scant interest in research. Today, however, ophthalmic research in Singapore is at a high international level, as exemplified by the activities of the Singapore Eye Research Institute (SERI), which is capable of competing with and challenging the world's leading eye research centers. Indeed, the world-class research carried out at SERI has helped to extend Singapore's international reach as the country moves towards its goal of becoming a global city and a leading nation influencing developments across Asia and the world. This book summarizes a decade of hard work, dedication, and commitment by a handful of doctors and researchers in their efforts to establish SERI and ensure its success. In particular, the remarkable contributions of two of Singapore's ophthalmic pioneers, the late Associate Professor Chew Sek Jin and current Professor Donald Tan, are acknowledged. The book will inspire leaders of developing nations in visualizing how research can develop rapidly in their own country and how support and facilities may materialize if they can gather a few dedicated, intelligent researchers. *Copeland and Afshari's Principles and Practice of Cornea* Robert A. Copeland, Natalie Afshari, Claes H. Dohlman, 2013-02-28 The cornea is the transparent front part of the eye, covering the iris and the pupil, allowing light to enter and covering two-thirds of the eye's focusing tasks. This two-volume set is a comprehensive guide to the latest research and techniques for the cornea. Beginning with basic science, examination techniques, and epidemiology, the following chapters discuss the diagnosis and the medical and surgical treatment of numerous different conditions and diseases that may affect the cornea. Written by an extensive international editor and author team, this manual features more than 1300 full-colour clinical and histopathological images, as well as a DVD demonstrating a multitude of surgical techniques described in the book. Key points: Comprehensive two-volume set.

describing diagnosis and treatment of numerous corneal disorders Features more than 1300 colour images and illustrations Includes a DVD demonstrating surgical techniques and procedures Extensive international author and editor team

Handbook of Basic and Clinical Ocular Pharmacology and Therapeutics Sunny Ohia,Najam Sharif,2022-07-26 Handbook of Basic and Clinical Ocular Pharmacology and Therapeutics provides a review of the basic anatomy physiology biochemistry and pathology of the eye with a focus drug therapy drug delivery and use of therapeutic medical miniature devices An understanding of the pharmacological actions of drugs acting on the eye requires the student and health care practitioner to learn additional principles in basic and clinical sciences that are unique to this organ As a sensory organ the eye is relatively inaccessible to the systemic circulation due to the blood vitreous blood aqueous and blood retinal barriers Consequently the administration of drugs for therapeutic effects in the eye necessitates an understanding of physico chemical properties of the molecules and pharmacokinetic principles involved in the access to its site of action via topical intracameral and intravitreal administration This book includes information on the general principles of pharmacokinetics and pharmacodynamics of drugs as it pertains to the eye and in combating ocular disorders and diseases Using a disease themed approach the book discusses basic and clinical pharmacological principles involved in the therapy of these diseases including the ocular side effect of systemically administered drugs drugs used in ophthalmic surgery and miscellaneous agents the therapeutic utility of biologics drug conjugates combination products gene and cellular therapy are also covered Handbook of Basic and Clinical Ocular Pharmacology and Therapeutics is useful as a primary and secondary source of reference for up to date information about the pharmacological mechanisms of action pharmacokinetics side effects drug drug interactions and therapeutic indications of drugs for pharmacologists pharmaceutical scientists students in the health care disciplines nursing pharmacy optometry medical and practitioners in optometry and ophthalmology Explains the mechanisms of action side effects and therapeutic uses of drugs biologics miniature devices gene and cellular therapies for the eye Provides a comprehensive review of the anatomy physiology biochemistry pharmacology microbiology genetics and pathology of parts of the eye involved in drug therapy to combat eye disorders and diseases Explores the pharmacological and clinical basis of drugs drug conjugates combination products used in the treatment of anterior and posterior segment diseases Big data and artificial intelligence in ophthalmology Tae-im Kim,Darren Shu Jeng Ting,Yi-Ting Hsieh,Tyler Hyungtaek Rim,2023-03-17

Innovation in Cataract Surgery Gede Pardianto,Marie-José Tassignon,2024-11-08 This edited book covers the history basics principles and fundamentals of cataract surgery as well as advice on managing challenging cases It includes various up to date information on topics such as phacoemulsification innovations in phacoemulsification femtosecond laser assisted cataract surgery small incision cataract surgery microscope intraocular lens intraocular lens power calculation ophthalmic viscoelastic device mass rural cataract surgery etc Tips on dealing with complex cases such as small pupils glaucoma cataracts cataracts with any retinal problems cataracts with uveitis cataracts in paediatric patients cataracts with any

corneal problems and post refractive surgery how to combat astigmatism are also discussed The book includes instructive illustrations figures and tables to aid the reader s understanding Innovation in Cataract Surgery is a comprehensive book for ophthalmologists ophthalmic surgeons ophthalmic residents medical students and researchers in the field of ophthalmology Ophthalmic nurses optometrists and opticians will also find this book informative Edited by renowned surgeons and with chapters written by pioneering authors the book will help readers gain a better understanding of how innovation has shaped current and future cataract surgery *Glaucoma Research and Clinical Advances* J.R. Samples,2025-08-14 New Concepts In Glaucoma Series This series has been conceived as a recurring project It is neither book nor journal Books are infrequently edited and rarely up to date for more than a year or two journals are really devoted to the standard experimental format and no longer permit authors to wander into speculation or lengthy discussions of what might come next There is room for a plurality of publishing approaches All of these formats have their place and all have different purposes in moving a field forward This series is designed to allow us to consolidate new information and hold forth on speculation in glaucoma It does so in both the basic sciences and clinical sciences It is our hope that this consolidation of hypotheses and theories along with identifying new information and new speculation will propel us toward a more rapid cure for glaucoma **Advances in Cell**

and Gene Therapy in Treating Neural Diseases Raymond Ching-Bong Wong,Kouichi Hasegawa,Guei-Sheung Liu,Gary S. L. Peh,2022-01-07 *Translational Neuroimmunology, Volume 7* Nima Rezaei,Niloufar Yazdanpanah,2023-06-16

Translational NeuroImmunology Neuroinflammation updates on bench to bedside studies on neurological disorders that have immunological etiologies The book covers neuroimmunology and the principles of autoimmune and autoinflammatory neurological disorders with multiple sclerosis as the main focus The immunopathology genetics and epigenetics microbiome diagnosis and treatment of multiple sclerosis will be explained in ten chapters A chapter also examines distinct aspects of pericytes with final discussions on the neurologic manifestations diagnostic approaches and treatments of the various neuroimmune disorders and lessons learned from translational research on non human primates and zebrafish All sections are presented in an accessible practical format making this volume a valuable resource for immunologists neurologists and researchers in translational biomedical research Gives an introduction on neuroimmunological diseases from bench to bedside Encourages the development of immunologic approaches to analyze the interaction and specific properties of nervous tissue elements during development and disease Focuses on understanding and therapeutically manipulating immunological responses to injury degeneration and autoimmunity in the central nervous system Proves changes in relevant immune and inflammatory reactions at the cellular and molecular level during the development of nervous system diseases

Glaucoma Pinakin Gunvant Davey,2023-09-13 Glaucoma is the leading cause of irreversible blindness Glaucoma is challenging to treat and poses a significant socioeconomic burden on society New techniques and methods for both diagnosis and treatment are sorely needed *Glaucoma Recent Advances and New Perspectives* provides a comprehensive overview of

glaucoma with chapters on topics ranging from diagnostic techniques to genetic testing and biomarkers **Myopia** Roger W. Beuerman, 2010 Section 1 Epidemiology and risk factors ch 1 1 Epidemiology of myopia and myopic shift in refraction Barbara E K Klein ch 1 2 Environmental risk factors for myopia in children Wilson C J Low Tien Yin Wong and Seang Mei Saw ch 1 3 Gene environment interactions in the aetiology of myopia Ian G Morgan and Kathryn A Rose ch 1 4 The economics of myopia Marcus C C Lim and Kevin D Frick Section 2 Clinical studies and pathologic myopia ch 2 1 Quality of life and myopia Ecosse L Lamoureux and Hwee Bee Wong ch 2 2 Ocular morbidity of pathological myopia V Swetha E Jeganathan Seang Mei Saw and Tien Yin Wong ch 2 3 Myopia and glaucoma Shamira A Perera and Tin Aung ch 2 4 The myopic retina Shu Yen Lee ch 2 5 Retinal function Chi D Luu and Audrey W L Chia Section 3 Genetics of myopia ch 3 1 New approaches in the genetics of myopia Liang K Goh Ravikanth Metlapally and Terri Young ch 3 2 Twins studies and myopia Maria Sch che and Paul N Baird ch 3 3 TIGR TGFB1 cMET HGF collagen genes and myopia Chiea Chuen Khor ch 3 4 Statistical analysis of genome wide association studies for myopia Yi Ju Li and Qiao Fan Section 4 Animal models and the biological basis of myopia ch 4 1 The relevance of studies in chicks for understanding myopia in humans Josh Wallman and Debora L Nickla ch 4 2 The mechanisms regulating scleral change in myopia Neville A McBrien ch 4 3 The mouse model of myopia Frank Schaeffel ch 4 4 Gene analysis in experimental animal models of myopia Roger W Beuerman Liang K Goh and Veluchamy A Barathi Section 5 Interventions for myopia ch 5 1 Atropine and other pharmacological approaches to prevent myopia Louis M G Tong Veluchamy A Barathi and Roger W Beuerman ch 5 2 Physical factors in myopia and potential therapies Wallace S Foulds and Chi D Luu **Refractive Errors: Public Health Challenges and Interventions** Carla Lanca, Andrzej Grzybowski, Chi Pui Pang, 2023-10-27 This Research Topic is Volume 2 in the Research Topic series Myopia Public Health challenges and interventions Uncorrected refractive errors are a significant cause of impaired vision and blindness in most world populations During early childhood uncorrected refractive errors may affect visual development and result in amblyopia The largest burden of refractive error is myopia which significantly increases the risk of blinding conditions such as myopic macular degeneration glaucoma and cataract High myopia poses greater risks than mild or moderate myopia Epidemiological research and advocacy have positioned uncorrected refractive errors on the global health agenda as a major public health issue However more research is needed to determine the full extent of the threat posed by refractive errors to establish effective interventions and to consolidate prevention methods **Updates on Myopia** Marcus Ang, Tien Y. Wong, 2019-10-29 This book is open access under a CC BY 4 0 license This open access book discusses basic clinical concepts of myopia prevention of progression and surgical treatments for myopia and pathological myopia It also summarises the latest evidence and best practices for managing myopia high myopia and its complications Written by leading experts the book addresses clinical diagnosis and interpretation of imaging modalities and various complications of myopia such as glaucoma choroidal neovascularization retinal degeneration and cataracts It is a valuable comprehensive resource for general and sub specialist

ophthalmologists as well as residents and ophthalmologists in training *Advances in Ocular Imaging and Biometry*
Zhenzhen Liu,Xiangjia Zhu,Jiangyue Zhao,Haotian Lin,Ying Han,2022-11-09 Pathologic Myopia Richard F. Spaide,Kyoko Ohno-Matsui,Lawrence A. Yannuzzi,2021-07-28 Pathologic Myopia is a major cause of severe vision loss worldwide The mechanisms for vision loss include cataract glaucoma retinal detachment and above all myopic maculopathy within the posterior staphyloma The first edition of Pathologic Myopia is one of the only current books to specifically address this disease and discusses recent developments in imaging technologies and various approaches to treatments such as laser photocoagulation photodynamic therapy pharmacologic therapeutic injections in the vitreous and surgery This new edition is a timely update to the standard reference in the field with new chapters on advanced refractive error correction genetics developing a classification system and special surgical approaches for pathologic myopia Complete with even more high quality color images and informative tables this book is written and edited by leaders in the field and is geared towards ophthalmologists including residents and fellows in training glaucoma and cataract specialists and vitreoretinal macula experts 50 Years Of Science In Singapore Bernard Tiong Gie Tan,Hock Lim,Kok Khoo Phua,2016-12-12 As part of the commemorative book series on Singapore s 50 years of nation building this important compendium traces the history and development of the various sectors of Singapore science in the last 50 years or so The book covers the government agencies responsible for science funding and research policy the academic institutions and departments who have been in the forefront of the development of the nation s scientific manpower and research the research centres and institutes which have been breaking new ground in both basic and applied science research science museums and education and the academic and professional institutions which the scientific community has set up to enable Singapore scientists to serve the nation more effectively Each article is chronicled by eminent authors who have played important roles and made significant contributions in shaping today s achievement of science in Singapore Professionals academics students and the general public will find this volume a useful reference material and an inspirational easy read *Ophthalmology Examinations Review, The (Third Edition)* Tien Yin Wong,Wesley Guang Wei Chong,Zhu Li Yap,Saadia Farooqui,2019-05-29 Since the last Edition of Ophthalmology Examinations Review there has been major new discovery in the understanding of common eye diseases and new treatments and diagnostic procedures have been refined or newly developed A revised Edition reflecting these changes is warranted at this time The aim and scope of the book will be consistent with the previous two editions in that it will provide a broad review for the final year ophthalmology resident and trainees taking the specialist ophthalmology examinations The book deals primarily with key facts and topics that are important from an examination perspective Only information and facts that are considered relevant and critical to the exams are covered with topics that may be of scientific interest but are not common to exams specifically left out This book will help the resident organize and synthesize knowledge acquired from various other sources or textbooks While not meant to replace standard textbooks enough information is

contained within the book to serve as the main revision text nearer the exams The style and format of this book is intentionally didactic with questions and short answers The answer includes a model opening statement followed by a classification system to aid organization of facts and then by the bulk of the answer in concise short notes Exam Tips are inserted to provide an insight into how to answer different types of questions and when appropriate a Clinical Approach section is also included In the new edition topics such as new understanding of disease mechanisms new investigations e g OCT and new procedures and treatment e g use of anti vascular endothelial growth factors new refractive surgical techniques new corneal transplant are covered Artificial Intelligence and Ophthalmology Parul Ichhpujani, Sahil

Thakur, 2021-04-22 The book helps to explore the vast expanse of artificial intelligence based scientific content that has been published in the last few years Ophthalmology has recently undergone a silent digital revolution with machine learning and deep learning algorithms consistently outperforming human graders in studies published across the globe It is high time that a resource that breaks this information behemoth into easily digestible bits comes to the fore This book simplifies the complex mechanics of algorithms used in ophthalmology and vision science applications It also tries to address potential ethical issues with machines entering our clinics and patients lives Overall it is essential reading for ophthalmologists eye care professionals interested in artificial intelligence and everyone who is looking for a deep dive into the exciting world of digital medicine *Deep Learning in Medical Image Analysis* Gobert Lee, Hiroshi Fujita, 2020-02-06 This book presents cutting edge research and applications of deep learning in a broad range of medical imaging scenarios such as computer aided diagnosis image segmentation tissue recognition and classification and other areas of medical and healthcare problems Each of its chapters covers a topic in depth ranging from medical image synthesis and techniques for musculoskeletal analysis to diagnostic tools for breast lesions on digital mammograms and glaucoma on retinal fundus images It also provides an overview of deep learning in medical image analysis and highlights issues and challenges encountered by researchers and clinicians surveying and discussing practical approaches in general and in the context of specific problems Academics clinical and industry researchers as well as young researchers and graduate students in medical imaging computer aided diagnosis biomedical engineering and computer vision will find this book a great reference and very useful learning resource

Artificial Intelligence in Medicine Lei Xing, Maryellen L. Giger, James K. Min, 2020-09-03 Artificial Intelligence Medicine Technical Basis and Clinical Applications presents a comprehensive overview of the field ranging from its history and technical foundations to specific clinical applications and finally to prospects Artificial Intelligence AI is expanding across all domains at a breakneck speed Medicine with the availability of large multidimensional datasets lends itself to strong potential advancement with the appropriate harnessing of AI The integration of AI can occur throughout the continuum of medicine from basic laboratory discovery to clinical application and healthcare delivery Integrating AI within medicine has been met with both excitement and scepticism By understanding how AI works and developing an appreciation for both

limitations and strengths clinicians can harness its computational power to streamline workflow and improve patient care It also provides the opportunity to improve upon research methodologies beyond what is currently available using traditional statistical approaches On the other hand computers scientists and data analysts can provide solutions but often lack easy access to clinical insight that may help focus their efforts This book provides vital background knowledge to help bring these two groups together and to engage in more streamlined dialogue to yield productive collaborative solutions in the field of medicine Provides history and overview of artificial intelligence as narrated by pioneers in the field Discusses broad and deep background and updates on recent advances in both medicine and artificial intelligence that enabled the application of artificial intelligence Addresses the ever expanding application of this novel technology and discusses some of the unique challenges associated with such an approach

Unveiling the Power of Verbal Beauty: An Emotional Sojourn through **Seri Singapore Eye Research Institute**

In some sort of inundated with screens and the cacophony of instantaneous interaction, the profound power and psychological resonance of verbal artistry often diminish into obscurity, eclipsed by the regular assault of sound and distractions. However, set within the musical pages of **Seri Singapore Eye Research Institute**, a interesting perform of literary beauty that pulses with organic emotions, lies an unique trip waiting to be embarked upon. Composed with a virtuoso wordsmith, this enchanting opus guides visitors on a psychological odyssey, lightly revealing the latent potential and profound impact embedded within the intricate web of language. Within the heart-wrenching expanse of this evocative evaluation, we can embark upon an introspective exploration of the book is central styles, dissect their charming writing type, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
