the role of the father in the contemporary two parent heterosexual family Of eight longitudinal studies from several Western countries six focus on the socialization outcomes of the children and two concentrate on parental satisfaction Although the father is in focus family dynamics cannot be conclusively described without a look at the mother and parental interaction Therefore all of the studies examine mothers and their role in the family system Thus the book gives a contemporary insight into the father and his role in changing family dynamics This book was originally published as a special issue of the European Journal of Developmental Psychology
