

Sonnet 20: A Woman's Face With Nature's Own Hand Painted

*A woman's face with Nature's own hand painted
Hast thou, the master-mistress of my passion;
A woman's gentle heart, but not acquainted
With shifting change, as is false women's fashion;
An eye more bright than theirs, less false in rolling,
Gilding the object whereupon it gazeth;
A man in hue, all hues in his controlling,
Which steals men's eyes and women's souls amazeth.
And for a woman wert thou first created,
Till Nature, as she wrought thee, fell a-doting,
And by addition me of thee defeated,
By adding one thing to my purpose nothing.
But since she pricked thee out for women's pleasure,
Mine be thy love and thy love's use their treasure.*

Shakespeare And The Nature Of Women:

Shakespeare and the Nature of Women Juliet Dusinberre, 1975 *SHAKESPEARE AND THE NATURE OF WOMEN* was the first full length feminist analysis of the plays of Shakespeare and his contemporaries Its arguments for the feminism both of the drama and the early modern period caused instant controversy Dusinberre claims that Puritan teaching on sexuality and spiritual equality raises questions about women which feed into the drama where the role of women in relation to authority structures is constantly renegotiated *SHAKESPEARE AND THE NATURE OF WOMEN* claimed for women a right to speak about the literary text from their own place in history and culture The author's Preface to the Second Edition traces contemporary developments in feminist scholarship which still wrestles with the book's main thesis Renaissance feminism feminist Shakespeare

Shakespeare and the Nature of Women Juliet Dusinberre, 1996-06-12 *Shakespeare and the Nature of Women* was the first full length feminist analysis of the plays of Shakespeare and his contemporaries ushering in a new era in research and criticism Its arguments for the feminism both of the drama and the early modern period caused instant controversy which still engrosses scholars Dusinberre argues that Puritan teaching on sexuality and spiritual equality raises questions about women which feed into the drama where the role of women in relation to authority structures is constantly renegotiated Using a critical language which predates Foucault and other major theorists *Shakespeare and the Nature of Women* argues that Renaissance drama highlights ways in which the feminine and the masculine are socially constructed The presence of the boy actor on stage created an awareness of gender as performance now crucial to contemporary feminist thought *Shakespeare and the Nature of Women* claimed for women a right to speak about the literary text from their own place in history and culture The author's Preface to the second edition traces contemporary developments in feminist scholarship which still wrestles with the book's main thesis Renaissance feminism feminist Shakespeare

Shakespeare and the Nature of Women Juliet Dusinberre, 1996 This is a new third edition of this pioneering work in feminist and literary criticism When first published in 1975 *Shakespeare and the Nature of Women* inaugurated a new wave of Shakespeare scholarship offering a sustained critique of inherited male thinking about women theological literary and social issues in Shakespeare's plays Almost thirty years later it continues to be the cornerstone of writing about women in this period and the springboard for new research This new edition includes a new preface and updated bibliography and developments in feminist thinking about Shakespeare

Shakespeare and the Nature of Love Marcus Nordlund, 2007 The best conception of love Marcus Nordlund contends and hence the best framework for its literary analysis must be a fusion of evolutionary cultural and historical explanation It is within just such a bio cultural nexus that Nordlund explores Shakespeare's treatment of different forms of love His approach leads to a valuable new perspective on Shakespearean love and more broadly on the interaction between our common humanity and our historical contingency as they are reflected recast transformed or even suppressed in literary works After addressing critical issues about love biology

and culture raised by his method Nordlund considers four specific forms of love in seven of Shakespeare's plays Examining the vicissitudes of parental love in Titus Andronicus and Coriolanus he argues that Shakespeare makes a sustained inquiry into the impact of culture and society upon the natural human affections King Lear offers insight into the conflicted relationship between love and duty In two problem plays about romantic love Troilus and Cressida and All's Well that Ends Well the tension between individual idiosyncrasies and social consensus becomes especially salient And finally in Othello and The Winter's Tale Nordlund asks what Shakespeare can tell us about the dark avatar of jealousy

Shakespeare / Nature Charlotte Scott, 2024-01-11 Shakespeare's Nature sets new agendas for the study of nature in Shakespeare's work Offering a rich exploration of the intersections between the human and non human worlds the chapters focus on the contested and persuasive language of nature both as organic matter and cultural conditioning Rooted in close textual analysis and historical acuity this collection addresses Shakespeare's works through the many ways in which nature performs as a cultural category a moral marker and a set of essential conditions through which the human may pass as well as affect Addressing the complex conditions of the play worlds the chapters explore the assorted forms through which Shakespeare's nature makes sense of its narratives and supports upholds or contests its story telling Over the course of the collection the contributors examine plays including Macbeth Julius Caesar The Tempest The Taming of the Shrew Othello Love's Labour's Lost Hamlet Timon of Athens and many more They discuss them through the various lenses of philosophy historicism psychoanalysis gender studies cosmography geography sexuality linguistics environmentalism feminism and robotics to provide new and nuanced readings of the intersectional terms of both meaning and matter Approaching nature in all its multiplicity this collection sets out to examine the divergent and complex ways in which the human and non human worlds intersect and the development of a language of symbiosis that attempts to both control and create the terms of human authority It offers an entirely new approach to the subject of nature bringing together disparate methods that have previously been pursued independently to offer a shared investment in the intersections between the human and non human worlds and how these discourses shape and condition the emotional organic cultural and psychological landscapes of Shakespeare's play worlds

Shakespeare's Nature Charlotte Scott, 2014-01-30 Shakespeare's Nature offers the first sustained account of the impact of the language and practice of husbandry on Shakespeare's work It shows how the early modern discourse of cultivation changes attitude to the natural world and traces the interrelationships between the human and the natural worlds in Shakespeare's work through dramatic and poetic models of intervention management prudence and profit Ranging from the Sonnets to The Tempest the book explains how cultivation of the land responds to and reinforces social welfare and reveals the extent to which the dominant industry of Shakespeare's time shaped a new language of social relations Beginning with an examination of the rise in the production of early modern printed husbandry manuals Shakespeare's Nature draws on the varied fields of economic agrarian humanist Christian and literary studies showing how the language of husbandry redefined Elizabethan attitudes to

both the human and non human worlds In a series of close readings of specific plays and poems this book explains how cultivation forms and develops social and economic value systems and how the early modern imagination was dependent on metaphors of investment nurture and growth By tracing this language of intervention and creation in Shakespeare s work this book reveals a fundamental discourse in the development of early modern social political and personal values
