Teaching IFRS Richard M.S. Wilson, Ralph W. Adler, 2013-09-13 The increasing pace of global conformance towards the adoption of International Financial Reporting Standards IFRS highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS Teaching IFRS offers expert descriptions of and insights into the IFRS convergence process from a teaching and learning perspective Hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption Drawing upon the experiences of those who have sought to introduce IFRS related classroom innovations and the associated student outcomes achieved therefrom the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS related teaching resources to support those courses This book was originally published as a special issue of Accounting Education An international journal

The Concept of Self in Education, Family, and Sports Anne P. Prescott, 2006 The issue of self concept is central to the studies and practices of education and psychology The varying degrees of self esteem that exist between individuals can offer insight into the varying degrees of health and efficiency that exist for individuals in the worlds of education family and sport The research presented in this book are the latest explorations of how self concept translates into and has an effect on these far reaching and unavoidable aspects of life

Air Pollution Modeling and Its Application IX H. Van Dop, George Kallos, 2012-12-06 The interest in air pollution modelling has shown substantial growth over the last five years This was particularly evident by the increasing number of participants attending the NATO CCMS International Technical Meetings on Air Pollution modelling and its Application At the last meeting 118 papers and posters were selected from an abundance of submitted abstracts divided over five modelling topics i model assessment and verification including policy applications ii air pollution modelling in coastal areas with emphasis on the mediterranean region iii accidental atmospheric releases including warning systems and regulations iv modelling of global and long range transport and v new developments in turbulent diffusion A round table discussion chaired by John Irwin USA and Jan Kretzschmar Belgium on the harmonization of air pollution models was attended by more than 50 scientists and is reported in these proceedings The opening paper addressed the main issue of this conference modelling over complex terrain Of particular interest were coastal areas where the surface inhomogeneities introduce small scale circulation and varying atmospheric stability often combined with a complex topography As the conference was located on the beautiful island of Crete problems faced by the host nation particularly Athens and its environs were obvious examples for consideration These together with other regions with similar geographical features were addressed Heavily populated and industrialized as they often are air quality is generally poor there and emission regulations are desired Obviously a major task of air pollution dispersion modelling is to assist policy makers in

formulating sensible regulations *Comparative International Accounting, 14th Edition* Christopher Nobes, Robert B. Parker, Robert H. Parker, 2020 Now in its 14th edition Nobes and Parker's *Comparative International Accounting* is a comprehensive and coherent text on international financial reporting. It is primarily designed for undergraduate and postgraduate courses in comparative and international aspects of financial reporting. The book explores the conceptual and contextual found.

Accounting for Managers Paul M. Collier, 2015-06-08 This revised and updated fifth edition of *Accounting for Managers* builds on the international success of the previous editions in explaining how accounting is used by non financial managers. Emphasizing the interpretation as opposed to the construction of accounting information, *Accounting for Managers* encourages a critical rather than unthinking acceptance of accounting techniques. Whilst accounting information is immensely valuable for planning decision making and control, users need to recognize the assumptions behind and the limitations of particular accounting techniques. As in the previous editions, *Accounting for Managers* combines theory with practical examples and contemporary case studies drawn from real business situations across a wide range of manufacturing, retail and service industries. *Accounting for Managers* is an ideal companion for postgraduate and undergraduate students as well as non financial managers in executive education courses seeking a better understanding of the role played by accounting and how it affects their organization and business unit.

Corporate Valuation Benedicto Kulwizira Lukanima, 2023-08-04 This book provides students with basic knowledge and advance skills for addressing practical challenges in valuation. First the book presents financial information as a vital ingredient for performing corporate valuation. Second the book presents key concepts of value and valuation and basic techniques for cash flow discounting. Third the book offers an understanding of the reality of valuation not simply as a numerical subject as most people tend to think but as a combination of objective and subjective aspects. Finally it examines valuation in relation to the linkage between a firm's objective management role in value creation, investors' decisions and the valuation role of financial information. This book is designed and presented to make valuation easily accessible while also not diluting the nature of its complexity. To assist in the learning experience the author provides illustrative case studies using real world data and review questions to cover all concepts. To assist professors slides, Microsoft Excel illustrations, working data and sample syllabi are available online for download.
