Edward de Bono,2015-11-26 THE classic work of intelligent self empowerment from the world renowned writer and philosopher Edward de Bono Our happiness and success depend on clear thinking But too many of us are compromised by confusion trying to do too much at once and not knowing what to do next In Teach Yourself to Think Edward de Bono shows

that good thinking depends on a simple five stage process that anyone can learn It will enable you to assess your goals sort available information identify the available choices make a decision and finally turn thought into action This book offers brilliant advice for anyone who needs to be able to respond to and deal with a vast range of situations at work and in life quickly efficiently and intelligently

Autonomic Computing Richard Murch, 2004 This book introduces Autonomic Computing This concept is a cornerstone of IBM's strategic initiative and it offers great promise because autonomic computing systems have the ability to manage themselves and dynamically adapt to change in accordance with evolving or dynamic business policies and objectives The term autonomic comes from the autonomic nervous system which controls many organs and muscles in the human body These systems can perform management activities based on situations they observe or sense in the IT environment Rather than IT professionals initiating management activities the system observes something about itself and acts accordingly This allows the IT professional to focus on high value tasks while the technology manages the more mundane operations This book explains how this can be made to happen and the changes that need to be made to make it happen

De Bono's Thinking Course Edward De Bono, 1988 *Lateral Thinking* Edward De Bono, 1977

THE classic work about improving creativity from world renowned writer and philosopher Edward de Bono In schools we are taught to meet problems head on what Edward de Bono calls vertical thinking This works well in simple situations but we are at a loss when this approach fails What then Lateral thinking is all about freeing up your imagination Through a series of special techniques in groups or working alone Edward de Bono shows how to stimulate the mind in new and exciting ways Soon you will be looking at problems from a variety of angles and offering up solutions that are as ingenious as they are effective You will become much more productive and a formidable thinker in your own right If more bankers and traders had read Lateral Thinking and applied the ideas of Edward de Bono to their own narrow definitions of risk reward and human expectations I suspect we would be in much better shape than we are Sir Richard Branson Edward de Bono invented the concept of lateral thinking A world renowned writer and philosopher he is the leading authority in the field of creative thinking and the direct teaching of thinking as a skill Dr de Bono has written more than 60 books in 40 languages with people now teaching his methods worldwide He has chaired a special summit of Nobel Prize laureates and been hailed as one of the 250 people who have contributed most to mankind Dr de Bono's titles include classic bestsellers such as Six Thinking Hats Lateral Thinking I Am Right You Are Wrong Teach Yourself How To Think Teach Your Child How To Think and Simplicity all now re issued by Penguin www.edwdebono.com
