The Report: Saudi Arabia 2018 , Key initiatives include a privatisation programme which would see the divestment of a number of state owned giants such as the partial listing of Aramco the creation of the world s largest sovereign wealth fund and the increased participation of women in the job market The Kingdom has played a key role too on the international stage in 2017 becoming the first country to host President Trump a visit which resulted in renewed trade and investment commitments on both sides Meanwhile the country s importance as a trading hub continues to grow thanks to both the various infrastructural upgrades that are taking place to its ports and airports as well as its geographical advantage as a connector of three continents and its proximity to the Red Sea through which 10% of world trade travels Oil and the political economy in the Middle East Martin Beck,Thomas Richter,2021-08-17 The downhill slide in the global price of crude oil which started mid 2014 had major repercussions across the Middle East for net oil exporters as well as importers closely connected to the oil producing countries from the Gulf Following the Arab uprisings of 2010 and 2011 the oil price decline represented a second major shock for the region in the early twenty first century one that has continued to impose constraints but also provided opportunities Offering the first comprehensive analysis of the Middle Eastern political economy in response to the 2014 oil price decline this book connects oil market dynamics with an understanding of socio political changes Inspired by rentierism the contributors present original studies on Bahrain Egypt Jordan Kuwait Lebanon Oman Qatar Saudi Arabia and the United Arab Emirates The studies reveal a large diversity of country specific policy adjustment strategies from the migrant workers in the Arab Gulf who lost out in the post 2014 period but were incapable of repelling burdensome adjustment policies to Egypt Jordan and Lebanon who have never been able to fulfil the expectation that they could benefit from the 2014 oil price decline With timely contributions on the COVID 19 induced oil price crash in 2020 this collection signifies that rentierism still prevails with regard to both empirical dynamics in the Middle East and academic discussions on its political economy *The Report: Saudi Arabia 2019* Oliver Cornock, Home to an estimated 15% of the world s proven oil reserves and the single largest economy in MENA Saudi Arabia is a key regional and global player The Vision 2030 blueprint sets out regulatory budget and social reforms that will be implemented over the coming decade as the nation sets about curbing its reliance on crude oil production and export which accounted for 43.5% of GDP in 2018

The Report: Saudi Arabia 2020 Oliver Cornock, Saudi Arabia's decision to weaken the link between hydrocarbons and economic growth and pursue a policy of diversification has seen projects across a range of sectors come to fruition in the last several years While at present the twin crises presented by the Covid 19 pandemic and the unprecedented plunge in oil prices are causing significant short term uncertainty the reforms that have been put in place in recent years should stand the Kingdom in good stead over the longer term

The Arms Race in the Middle East Mohammad Eslami, Alena Vysotskaya Guedes Vieira, 2023-07-28 This edited volume discusses security policy and strategic policymaking in the Middle East region Due to its unique geopolitical geoeconomic and geostrategic features the Middle East region has been confronted with challenging security issues Combined with a lack of an efficient regional security regime this has led to the formation of a full fledged arms race This book draws together contributions from international experts to address the factors that have been contributing to the ongoing formation of an arms race in the Middle East as well as the impact of this phenomenon on the regional and global security environment The book is organized in three sections The first section outlines the contemporary dynamics of the arms race in the Middle East by focusing on its most recent dynamics and their implications for regional and international security The second section conducts systematic analysis of case studies of country specific drivers of the arms race The third and final section examines the role of external actors in the arms race evaluating both the responses of regional actors to external interventions as well as the implications of the arms race for extra regional countries
