Constantinople and the West Deno John Geanakoplos, 1989 Deno John Geanakoplos demonstrates the fusion of Byzantine and Latin cultural and ecclesiastical relations in the Renaissance Karaite Judaism and Historical Understanding Fred Astren, 2004 Examines the changing relationship of this Jewish sect to rabbinic Judaism and the influence of Muslim and Christian environments Notions of history and the past contained in literature of the Karaite Jewish sect offer insight into the relationship of Karaism to mainstream rabbinic Judaism and to Islam and Christianity Karaite Judaism and Historical Understanding describes how a minority sectarian religious community constructs and uses historical ideology It investigates the proportioning of historical ideology to law and doctrine and the influence of historical setting on religious writings about the past In the present volume Fred Astren discusses modes of representing the past especially in Jewish culture and then poses questions about the past in sectarian particularly Judaic sectarian contexts He contrasts early Karaite scripturalism with the literature of rabbinic Judaism which embodying historical views that carry a moralistic burden draws upon the chain of tradition to suppose a generation to generation transmission of divine knowledge and authority Karaites in the medieval Islamic world eschewed historical thinking in concert with their rejection of the rabbinic concept of tradition One important medieval Karaite al Qirqisani however constructed a sophisticated historical argument as part of his philosophical exposition of Karaism demonstrating theological and philosophical strategies common in Islam and Christianity The center of Karaism shifted to the Byzantine Turkish world during the twelfth through sixteenth centuries when a new historical outlook unoblivious of the past accommodated legal developments influenced by rabbinic thought Reconstructing Karaite historical expression from both published works and previously unexamined manuscripts Astren shows that Karaites relied on rabbinic

literature to extract and compile historical data for their own readings of Jewish history which they recorded in an encyclopedic literature similar to contemporary Byzantine Christian Orthodox writing Astren documents how as the Karaites moved toward a concept of tradition and echoed rabbinic historical formulations they developed a version of the chain of tradition to link archaic biblical history to their own community During the seventeenth and eighteenth centuries Karaite scholars in Poland and Lithuania collated and harmonized historical materials inherited from their Middle Eastern predecessors Astren portrays the way that Karaites with some influence from Jewish Renaissance historiography and impelled by features of Protestant Catholic discourse prepared complete literary historical works that maintained their Jewishness while offering a Karaite reading of Jewish history

Framing the Early Middle Ages Chris Wickham, 2005-09-22 The Roman empire tends to be seen as a whole whereas the early middle ages tends to be seen as a collection of regional histories roughly corresponding to the land areas of modern nation states As a result early medieval history is much more fragmented and there have been few convincing syntheses of socio economic change in the post Roman world since the 1930s In recent decades the rise of early medieval archaeology has also transformed our source base but this has not been adequately integrated into analyses of documentary history in almost any country In *Framing the Early Middle Ages* Chris Wickham combines documentary and archaeological evidence to create a comparative history of the period 400 800 His analysis embraces each of the regions of the late Roman and immediately post Roman world from Denmark to Egypt The book concentrates on classic socio economic themes state finance the wealth and identity of the aristocracy estate management peasant society rural settlement cities and exchange These give only a partial picture of the period but they frame and explain other developments Earlier syntheses have taken the development of a single region as typical with divergent developments presented as exceptions This book takes all different developments as typical and aims to construct a synthesis based on a better understanding of difference and the reasons for it
