Public Affairs Education and Training in the 21st Century Kulaç, Onur, Babaoğlu, Cenay, Akman, Elvettin, 2021-09-17

Since the beginning of the 20th century public administration PA departments have been established primarily in the USA and later in other Western countries and education in the field of public administration has been provided in these departments. As the field of public administration has been changing due to globalization, government reforms and increasing governance practices within intergovernmental networks, research and teaching in public administration has also had to adapt. Public Affairs Education and Training in the 21st Century highlights the best practices of various countries in public administration and policy education and training to contribute to the development of the public administration and policy education training field. This book focuses on comparative studies and innovative teaching techniques and how they affect public administration education methods and curriculum. Highlighting topics that include distance learning, public affairs education, ethics and public policy, this book is essential for teachers, public affairs specialists, trainers, researchers, students, practitioners, policymakers, academicians, public administrators, public officials and public policy scholars. **Addressing**

Inequities in Modern Educational Assessment Jorge Sainz, Ismael Sanz, 2023-11-14. This edited book focuses on the central and up-to-date issues that represent some of the most relevant challenges and limitations of International Learning Assessments (ILSAs). It specifically sheds light on the general effects of the discontinuation of face-to-face education on students at diverse academic levels during the COVID-19 pandemic. Through the lens of the most relevant experts of the field, it highlights the asymmetric effects on students based on family income, education level or employment, imposing a heavy toll on those with less resources. It raises issues regarding the impact on the mental health of students and education professionals due to school closures. Modern education is shifting its focus from just scores to detailed qualitative feedback. Such comprehensive insights help students identify both strengths and growth areas, making assessments more constructive. This book is aimed for researchers in the field of educational assessments, graduate and postgraduate students, policy makers and anyone interested in making informed decisions regarding ILSAs. COVID-19 brought immense educational challenges; it also presented an unprecedented opportunity to reassess and reform existing systems, steering towards assessments that are both fair and empowering. Time Matters Janet Pembro, Clare Doran, Sarah Dutt, 2017-07-05. Time Matters is a practical resource to help children and young people learn about time. Time is usually taught through the Primary school years; teachers working in Secondary schools have been very surprised to discover these gaps in students' understanding of calendar time, having assumed that these skills have been acquired at an earlier age. This practical resource helps to teach the essential skills needed to carry out a range of time-related concepts, e.g. telling the time on a clock. Can be used by older children, young people and adults who have learned some of the key concepts but need more in-depth knowledge, further practice or opportunities to practise skills in a functional way. Includes case studies and the rationale for working on different

aspects of time teaching worksheets and also practical strategies and activities to develop life skills which affect us all e.g making and keeping appointments travelling using calendars and diaries etc Can be used in a range of settings including Education Health and Social Care Global Education Monitoring Report Global Education Monitoring Report Team, UNESCO, 2021-12-10 El papel de los actores no estatales no se limita a la escolarizaci n sino que se extiende a las intervenciones en varios niveles educativos y esferas de influencia Junto con su examen de los progresos realizados en la consecuci n del Objetivo de Desarrollo Sostenible ODS 4 incluidos los nuevos datos sobre la repercusi n de la pandemia de COVID 19 el Informe de Seguimiento de la Educaci n en el Mundo 2021 2022 insta a los gobiernos a considerar que todas las instituciones el alumnado y el personal docente forman parte de un nico sistema Las normas la informaci n los incentivos y la rendici n de cuentas deben ayudar a los gobiernos a proteger respetar y cumplir el derecho a la educaci n de todas las personas sin apartar la vista de los privilegios o la explotaci n La educaci n financiada con fondos p blicos no tiene por qu ser p blica pero hay que abordar la disparidad en los procesos educativos los resultados del estudiantado y las condiciones de trabajo del personal docente La eficiencia y la innovaci n en lugar de ser secretos comerciales han de ser difundidas y practicadas por todas las personas Para ello es necesario mantener la transparencia y la integridad en el proceso de las pol ticas p blicas de educaci n para bloquear los intereses privados **Education at a Glance 2023 Sources, Methodologies and Technical Notes** OECD, 2023-09-12 This publication provides additional reference material for Education at a Glance 2023 the authoritative source for data on the state of education around the world It provides guidance on the data and methodology used to calculate each indicator It also contains references to the sources and specific notes for each country
