INTRODUCTION

Recently, Nigeria has witnessed an unprecedented level of insecurity. This has threatened national security and has prompted huge allocation of the national budget to security (Achumba and Akpor 2013). The 1999 Constitution of the Federal Republic of Nigeria specifically states that "The security and welfare of the people shall be the primary purpose of government". Unfortunately, government on this constitutional responsibility has failed to provide a secured and safe environment for lives, properties and the conduct of business and economic activities. The alarming level of insecurity in Nigeria has increased the crime rate and terrorists attacks in different parts of the country, leaving unpalatable consequences for the nation's economy and

Al Chukwuma Okoli, Folahanmi Aina, and the contributors address the role of security in state steering, the role of the state in security, the conceptual and theoretical frames underpinning contemporary discourse on security governance, and the current position of security governance and national security architecture in Nigeria. The Political Economy of Kidnapping and Insecurity in Nigeria J. Shola Omotola, Samuel Oyewole, 2024-03-29

Providing unique perspectives on one of the leading hotspots of kidnapping in the world, this book examines the political and socioeconomic dimensions of the causes, manifestations, and consequences of kidnapping in Nigeria, as well as some of the control measures that have been adopted at different levels of governance and their effectiveness. The topics covered in the volume include details on the framework of understanding kidnapping, the evolution of kidnapping from pre-colonial to post-colonial eras, and the relationship between ungoverned spaces and kidnapping in the country. The book further sheds light on kidnapping in the context of insurgent campaigns with insights into oil-related militancy in the Niger Delta region, with the Islamist Boko Haram insurgency, and terrorism in the Northern region of Nigeria. It discusses non-insurgent kidnapping, situating kidnapping in the contexts of banditry, ransom, ritualism, baby factory, and human trafficking. Additionally, the volume analyses the emerging gender and transnational frontiers of kidnapping in Nigeria. Expanding the discussion on state responses, this book also looks into responses of non-state actors to kidnapping, as well as negotiations in hostage crisis management. Finally, it examines other unique subjects such as media coverage of kidnapping and the consequences for Nigeria's international image. The book will appeal to students, scholars, and researchers of political science, international relations, economics, sociology, history, law, and business management in general, as well as African studies, security studies, criminology, peace and conflict studies, and geography and area studies. It will also be helpful for public policy makers, African

security experts and professionals as well as business managers risk analysts and insurance industry that are interested in a better understanding of kidnapping and associated political social economic and security dynamics in Nigeria and beyond

Nigeria's 2019 Democratic Experience Egodi Uchendu, Olawari D. J. Egbe, 2022-06-06 Nigeria's democratisation efforts since attaining political independence from Britain have been tumultuous and have spanned over three successive republics. A persistent bug decimating Nigeria's democracy and repeatedly leading to military coups has been brazen electoral violence perpetrated by the nation's political elite. Nigeria's 2019 Democratic Experience analyses and explains what went wrong in Nigeria's experiment with democracy. Nigeria, Africa's most populous nation and the world's seventh most populous nation, also contributes 70% of West Africa's population. She is sub-Saharan Africa's largest oil producer and has remained Africa's largest economy by GDP since 2014. The country has hundreds of diverse ethnic nationalities and languages grouped into 36 states or federating units and an independent federal capital territory. Though recognized as Africa's largest democracy, her democratisation process since the 1960s has remained tumultuous with massive electoral violence and political intolerance. This repeatedly compelled the military to intervene in the nation's political history in the years 1966, 1983, and 1985. It is these developments that provided the motivation for this volume to capture for posterity the conduct of the 2019 General Elections in Nigeria.

National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security, economic, political, and social problems challenging national security, democracy, and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigeria's population still living below the poverty line. This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades. It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth, this country will witness worse civil disobedience, violence, revolts, militancy, breakdown of law and order, more kidnappings, and more of the citizens trying to check out of the country to other parts of the world in the future. It concludes, however, that under such intense pressures, the Government of Nigeria, even if it is simply for its self-preservation, will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria. These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use. There is this perception that Nigerians don't write and read. This perception is deep-seated even among intellectuals who see our authors as shallow researchers. But Dr. Dan Mou has debunked that myth and shown that Nigerians can write well-researched and detailed books. It is quite prophetic in its assessment of the Nigerian State. Agbo Agbo, deputy editor, *The Nation*. Dr. Dan Mou has proven himself a world-class scholar and an intellectual colossus. His reputation as an internationally renowned public policy expert has continued to soar. I congratulate him for these remarkable achievements. Professor Justice Abdul Fatai Kuti, first justice of Abuja High Court and former dean, faculty of law, University of Ado Ekiti, Ekiti State of Nigeria. Dr. Mou is certainly one of the

best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One Dr. Dan Mou, 2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use **Security in Nigeria** Caroline Varin, Freedom Onuoha, 2020-07-23 Nigeria is the most dynamic country on the African continent Yet the legacy of colonialism deep rooted corruption exposure to climate change and the proliferation of small arms have created a precarious security situation that holds back the country s potential for peace and prosperity Security in Nigeria explores the many security threats facing Nigeria and assesses the government s responses to date With contributors spanning three continents it provides an original and comprehensive analysis of old and new security threats and offers original solutions to address the crisis **French Language Politics and Education in Nigeria** Michael Akinpelu, Tunde Ajiboye, 2025-10-02 This book highlights the current trends and challenges of French learning in Nigeria s formal education system Edited by Michael Akinpelu and Tunde Ajiboye French Language Politics and Education in Nigeria Building Human Capital and a Multilingual Nation discusses the teaching learning of French in Nigeria and its roles in building human capital and fostering meaningful relationships with Francophone nations in the sub region Presenting varying approaches contributors postulate a renewal of pedagogical approaches to the teaching of French as a foreign language while others call on government authorities to promote and implement language policies in favor of French that take into account the realistic needs of the country Comprised of three parts part I examines the relationship between language policies and the texture of French educational planning in Nigeria Part II reflects on policy enunciations and interpretations that affect both the present and future as well as the challenges that French teaching and learning in the Nigerian educational system Part III explores policy decisions on
