*Seizing the White Space*, 2017 **Managing Value in Organisations** Donal Carroll, 2016-05-13 The song of organisational change goes Ready or not here I come You can't hide But is change collapsing everything or have some things not changed *Managing Value in Organisations* argues that traditional business thinking has produced low trust with high cost in increased disengagement the 100 year old management model still accrues organisational debt the business model privileges producers and the learning model pretends individual learning produces collective learning All are

now barriers to development Working with five organisations Donal Carroll reinvents the management model to multiply trust the business model for more complex customer value and learning model for significant collective learning He provides evidence that together these get organisations to their next stage of development faster In a climate of perceived increasing uncertainty and more for less it invites organisations to move from default models and choose their models to live on purpose This applied business research has many new ideas value creating research method three new models techniques for organisations to self assess and construct their next stage as well as fecund argument productive interference organisational orphans and facing down Facebook It invites readers on a risky narrative testing one idea in five organisations over one year through two journeys the organisations and writer s A different business book it seeks to capture the poetry and plumbing excitement of management innovation Managers at every level coaches consultants business scholars researchers anyone seeking sustainable improvement or who thinks the impossible can t be reached will find something here **Progressive**

**Trends in Knowledge and System-Based Science for Service Innovation** Kosaka, Michitaka, 2013-10-31 Scientific investigation in the service industry has produced a major effect on productivity and quality in order to lead to new services With ever evolving internet technologies and information environments system science and knowledge science seem to be an effective tool for service innovation in the 21st century Progressive Trends in Knowledge and System Based Science for Service Innovation illustrates new approaches to service innovation and new methodologies from the knowledge science and system science perspectives Practitioners and researchers interested in knowing more about practical theories and successful examples in service science will find this book to be a vital asset to their studies Accelerating Entrepreneurial

Decision- Making with Hybrid Intelligence Dr. Dominik Dellermann , 2020-02-10 Previous studies revealed that around 75 percent of all start ups fail at an early stage One main reason for this tremendous failure rate is that decision makers are typically confronted with high levels of uncertainty about the viability of their proposed business idea Following this argumentation entrepreneurial decisions can be defined as complex decision making problem under both risk and uncertainty While risk includes quantifiable probabilities uncertainty describes situations where neither outcomes nor their probability distribution can be assessed a priori Consequently the strategic decision making context is highly complex and contains lots of black swan events that seems to be unpredictable As previous research does not provide any software solutions for decision augmentation in such domains the purpose of this study is to explore the decision making context and then suggest novel and innovative design paradigms and design principles for decision augmentation for strategic decision making Summary: Seizing the White Space BusinessNews Publishing, 2014-10-28 The must read summary of Mark W Johnson s book Seizing the White Space Business Model Innovation for Growth and Renewal This complete summary of the ideas from Mark W Johnson s book Seizing the White Space shows that businesses that are successful in the long term are adept at negotiating white space the area outside of their current competencies and core activity In his book the author
